

SKILLED NURSING FACILITY (SNF) PROSPECTIVE PAYMENT SYSTEM (PPS)

ISSUE DATE: April 1, 2002

AUTHORITY: [32 CFR 199.14\(b\)](#); Sections 701 and 707 of NDAA 02

I. APPLICABILITY

This policy is mandatory for reimbursement of services provided by either network or non-network providers. However, alternative network reimbursement methodologies are permitted when approved by TMA and specifically included in the network provider agreement.

II. ISSUE

What is the definition of a SNF and how are SNFs to be reimbursed under SNF PPS?

III. SNF DEFINITION

In accordance with [32 CFR 199.6\(b\)\(4\)\(vi\)](#), a SNF is an institution (or a distinct part of an institution) that is engaged primarily in providing to inpatients medically necessary skilled nursing care, which is other than a nursing home or intermediate facility, and which:

A. Has policies that are developed with the advice of (and with provisions for review on a periodic basis by) a group of professionals, including one or more physicians and one or more registered nurses, to govern the skilled nursing care and related medical services it provides;

B. Has a physician, a registered nurse, or a medical staff responsible for the execution of such policies;

C. Has a requirement that the medical care of each patient must be under the supervision of a physician, and provides for having a physician available to furnish necessary medical care in case of an emergency;

D. Maintains clinical records on all patients;

E. Provides 24-hour skilled nursing service that is sufficient to meet nursing needs in accordance with the policies developed as provided in [paragraph III.A.](#) above, and has at least one registered professional nurse employed full-time;

TRICARE REIMBURSEMENT MANUAL 6010.55-M, AUGUST 1, 2002

CHAPTER 8, SECTION 2

SKILLED NURSING FACILITY (SNF) PROSPECTIVE PAYMENT SYSTEM (PPS)

F. Provides appropriate methods and procedures for the dispensing and administering of drugs and biologicals;

G. Has in effect a utilization review plan that is operational and functioning;

H. In the case of an institution in a state in which state or applicable local law provides for the licensing of this type facility, the institution:

1. Is licensed pursuant to such law, or

2. Is approved by the agency of such state or locality responsible for licensing such institutions as meeting the standards established for such licensing;

I. Has in effect an operating plan and budget;

J. Meets such provisions of the most current edition of the Life Safety Code as are applicable to nursing facilities; except that if the Secretary of Health and Human Services has waived, for such periods, as deemed appropriate, specific provisions of such code which, if rigidly applied, would result in unreasonable hardship upon a nursing facility; and

K. Is an authorized provider under the Medicare program, and meets the requirements of Title 18 of the Social Security Act, sections 1819 (a), (b), (c), and (d) (42 U.S.C. 1395 i-3(a) - (d)).

The Social Security Act defines a SNF as follows:

SEC. 1819. [42 U.S.C. 1395i-3] (a) SKILLED NURSING FACILITY DEFINED.--In this title, the term "skilled nursing facility" means an institution (or a distinct part of an institution) which--

1. is primarily engaged in providing to residents-- (A) skilled nursing care and related services for residents who require medical or nursing care, or (B) rehabilitation services for the rehabilitation of injured, disabled, or sick persons, and is not primarily for the care and treatment of mental diseases;

2. has in effect a transfer agreement (meeting the requirements of section 1861(l)) with one or more hospitals having agreements in effect under section 1866; and

3. meets the requirements for a skilled nursing facility described in subsections (b), (c), and (d) of this section.

IV. POLICY

A. Beneficiaries subject to the provisions of SNF PPS:

SNF PPS will apply to TRICARE beneficiaries who satisfy the qualifying coverage requirements of the TRICARE SNF benefit. The beneficiary must receive care from a Medicare-certified and TRICARE-certified SNF and must be assessed using the MDS assessment form. There are ten categories of beneficiaries who will be subject to the

TRICARE REIMBURSEMENT MANUAL 6010.55-M, AUGUST 1, 2002
CHAPTER 8, SECTION 2
SKILLED NURSING FACILITY (SNF) PROSPECTIVE PAYMENT SYSTEM (PPS)

provisions of the SNF PPS if they satisfy the TRICARE SNF benefit coverage requirements.

1. Beneficiaries under age 65 who are not eligible for Medicare, but who satisfy the TRICARE SNF benefit coverage requirements, with no Other Health Insurance (OHI) [TRICARE is primary payer];
2. Beneficiaries under age 65 who are not eligible for Medicare, but who satisfy the TRICARE SNF benefit coverage requirements, with OHI (see [Chapter 4, Section 2, paragraph II.E.](#));
3. Beneficiaries under age 65 who are eligible for Medicare, with no OHI [TRICARE is secondary payer];
4. Beneficiaries under age 65 who are eligible for Medicare, with OHI [TRICARE is third payer];
5. Beneficiaries age 65 and over who are eligible for Medicare, with less than 100 day covered Medicare SNF stay, with no OHI [TRICARE is secondary payer];
6. Beneficiaries age 65 and over who are eligible for Medicare with less than a 100-day covered Medicare SNF stay, with OHI [TRICARE is third payer];
7. Beneficiaries age 65 and over who are eligible for Medicare and who have exhausted their Medicare SNF benefit by exceeding the 100 day stay maximum allowed by Medicare but who satisfy the TRICARE SNF benefit coverage requirements, with no OHI [TRICARE is primary payer];
8. Beneficiaries age 65 and over who are eligible for Medicare and who have exhausted their Medicare SNF benefit by exceeding the 100 day stay maximum allowed by Medicare but who satisfy the TRICARE SNF benefit coverage requirements, with OHI (see [Chapter 4, Section 2, paragraph II.E.](#));
9. Beneficiaries age 65 and over who are not eligible for Medicare but who satisfy the TRICARE SNF benefit coverage requirements, with no OHI [TRICARE is primary payer]; and
10. Beneficiaries age 65 and over who are not eligible for Medicare but who satisfy the TRICARE SNF benefit coverage requirements, with OHI (see [Chapter 4, Section 2, paragraph II.E.](#)).

B. For Admissions Before (TBD):

See [Chapter 8, Section 1.](#)

C. For Admissions on or after (TBD), when TRICARE is Primary Payer:

1. TRICARE is the primary payer for SNF care for Medicare-eligible beneficiaries who have no OHI and who satisfy the TRICARE SNF qualifying coverage requirements (as discussed in [paragraph IV.C.3.](#) and [4.](#) below) after exhausting their 100 day covered Medicare

SNF **benefit**. TRICARE is also the primary payer for non-Medicare-eligible TRICARE beneficiaries who have no OHI and who meet the TRICARE SNF coverage requirements. In both situations, TRICARE's coordination of benefit rules will determine TRICARE's status as primary payer.

2. The Medicare SNF benefit provides for 100 days of SNF care per benefit period. The Medicare benefit period is a period of time for measuring the use of hospital insurance benefits. It is a period of consecutive dates during which covered services furnished to a patient, up to certain specified maximum amounts, can be paid. This benefit period begins with the first day (not included in a previous benefit period) on which a patient is furnished SNF care. The benefit period ends with the close of a period of 60 consecutive days during which the patient did not receive hospital care or was not in a SNF. (A new benefit period starts when a beneficiary has not received hospital or SNF care for 60 days in a row). After the 100 days of Medicare-covered care, the TRICARE benefit becomes primary if the beneficiary continues to satisfy the TRICARE coverage requirements and has no OHI. After exhaustion of the Medicare 100 day benefit, a Medicare denial will be required for a SNF claim to be processed by TRICARE.

3. For a SNF admission to be covered under TRICARE, the beneficiary must both have a qualifying hospital stay of 3 consecutive days or more, not including the hospital discharge day, and the beneficiary must enter the SNF within 30 days of discharge from the hospital. TRICARE and Medicare do make exceptions to this "within 30 days" rule for those cases that require future therapy after 30 days (e.g., a hip fracture patient who can't do weight-bearing exercises until after 30 days). TRICARE will follow Centers for Medicare and Medicaid Services (CMS) policy as outlined in 42 CFR, Section 409.30. (See [Chapter 8, Addendum A and B](#)). When TRICARE is the primary payer, it will be the responsibility of the contractor to determine whether the beneficiary has had a qualifying 3-day inpatient stay and has met the thirty-day discharge standard. The contractor will use the information in block 36 of UB-92 to make this determination. If block 36 of UB-92 is blank, the SNF claim will be denied unless the patient was involuntarily disenrolled from Medicare+Choice plan (see [paragraph IV.C.4.](#) below). The contractor will calculate the length of stay based on the SNF actual admission date provided on the UB-92 claim form. Any adverse TRICARE determinations involving medical necessity issues will be appealable to TRICARE whenever TRICARE is the primary payer. However, a denial based on the factual dispute (not the medical necessity) of SNF benefit for failure to meet the 3-day prior hospitalization of "within 30 days" requirement is not appealable. Any factual disputes surrounding the 3-day prior hospitalization or "within 30 days" requirement can be submitted to the TRICARE contractor for an administrative review.

Note to [paragraph IV.C.3.](#): If the qualifying hospital stay is denied as not being medically necessary, the SNF admission will be denied.

4. Covered SNF services must be skilled services as defined in 42 CFR 409.32 (see [Chapter 8, Addendum B](#)). Such skilled services must be for a medical condition that was either treated during the qualifying 3-day hospital stay, or started while the beneficiary was already receiving covered SNF care. These coverage requirements are the same as applied under Medicare. TRICARE will follow CMS policy and waive the 3-day prior hospitalization requirement for those beneficiaries involuntarily disenrolling from Medicare+Choice plans. Code 58 in the Condition Codes block in UB-92 will be the indication that patient is a

terminated enrollee in a Medicare+Choice Organization plan whose 3-day inpatient hospital stay was waived.

Note to paragraph IV.C.4.: With regard to the requirement that the skilled services must be for a medical condition that was treated during the qualifying 3-day hospital stay, it will generally be presumed that this requirement is met if the qualifying 3-day hospital requirement is met. When the facts which come to the attention of the contractor/claims processor in their normal review process indicate that the skilled services are not related to any of the diagnoses treated during the qualifying hospital stay, the SNF claim may be denied.

5. TRICARE reimbursement will follow Medicare's SNF prospective payment system (PPS) methodology and assessment schedule. However, if the SNF admission precedes the TRICARE implementation date of SNF PPS (regardless of the discharge date), all claims for that admission will be processed using the payment methodology as provided in [Chapter 8, Section 1, paragraph III.A.](#)

6. Under the SNF PPS methodology and assessment schedule system, the patient will be assessed upon admission to the SNF using the Minimum Data Set (MDS) assessment tool. The Nursing Home Reform Act of the Omnibus Budget Reconciliation Act (OBRA 1987) mandates that all certified long term care facilities must use the MDS as a condition of participating in Medicare or Medicaid which TRICARE is also adopting.

7. The MDS is a set of clinical and functional status measures that provides the basis for the Resource Utilization Group (RUG)-III classification system and the PPS. Nursing facilities must collect these data on each of their residents at prescribed intervals and upon any significant change in physical or mental condition. The MDS data are then used to classify residents into one of 44 case-mix RUGs based on their clinical characteristics, functional status and expected resource needs.

8. SNF residents will be assessed by SNFs on days 5, 14, 30, 60 and 90. Thereafter, under TRICARE, the residents will be assessed every 30 days using the comprehensive MDS assessment form. For untimely assessments, there will be penalties similar to those used by CMS. In a case of untimely assessment, the SNF will submit the claim with a default rate code and the SNF will be reimbursed at the lowest RUG pricing. If a SNF resident returns to the SNF following a temporary absence for hospitalization or therapeutic leave, it will be considered a readmission.

9. SNFs are not required to assess a resident upon readmission, unless there has been a significant change in the resident's condition. If the resident experiences a significant change in condition (i.e. either an improvement or decline in the physical, mental or psychosocial level of well-being), the facility must complete a full comprehensive assessment by the end of the 14th calendar day following determination that a significant change has occurred. A "significant change" is defined as a major change in the resident's status that:

a. Is not self-limiting (i.e. the condition will not normally resolve itself without further clinical intervention);

b. Impacts on more than one area of the resident's health status; and

TRICARE REIMBURSEMENT MANUAL 6010.55-M, AUGUST 1, 2002

CHAPTER 8, SECTION 2

SKILLED NURSING FACILITY (SNF) PROSPECTIVE PAYMENT SYSTEM (PPS)

- c. Requires interdisciplinary review or revision of the care plan.

If a SNF has discharged a resident without the expectation that the resident would return, then the returning resident is considered a new admission (return stay) and would require an initial admission comprehensive assessment including Sections AB (Demographic Information) and AC (Customary Routine) of the assessment form within 14 days of admission.

10. SNFs are not required to automatically transmit MDS assessment data to the TRICARE contractors. However, the TRICARE contractor, at its discretion, may collect the MDS assessment data from SNFs for assessments done after the 90th day or when TRICARE is the primary payer. MDS forms and relevant background information may be found on the following websites:

<http://www.hcfa.gov/medicaid/mds20/man-form.htm>

<http://www.hcfa.gov/medicaid/mds20/mds0900b.pdf>

For the most part, TRICARE will function as a secondary payer to Medicare under SNF PPS in which case there is no need to collect the MDS assessment data. When TRICARE is primary payer, the TRICARE contractors, at their discretion, may collect the MDS assessment data from SNFs for audit and tracking purposes. TRICARE contractor, at its discretion, may require documentation for adjudication of a SNF claim when TRICARE is primary payer.

11. SNF staff will input the MDS assessment data into the MDS RUG-III grouper. The Grouper will then generate an appropriate three-digit RUG-III code. A complete listing of three-digit RUG-III codes with corresponding definitions is included as [Chapter 8, Addendum C](#). To supplement the 3-digit RUG-III code, the SNF will add the appropriate two-digit modifier from Section A.8. of the MDS form to indicate the reason for the MDS assessment before submitting the claim for payment. The 3-digit RUG-III code and the two-digit modifier make up the five-digit Health Insurance Prospective Payment System (HIPPS) code. The SNF will enter the HIPPS code on the UB-92 claim form in the HCPCS code field that corresponds with the Revenue Code 022. After the 100th day, for TRICARE patients, SNFs will use an appropriate three-digit RUG-III code with a TRICARE-specific two-digit modifier that makes up the HIPPS code. The TRICARE-specific two-digit modifiers will be as follows:

120-day assessment	.8A
150-day assessment	.8B
180-day assessment	.8C
210-day assessment	.8D
240-day assessment	.8E
270-day assessment	.8F
300-day assessment	.8G
330-day assessment	.8H

TRICARE REIMBURSEMENT MANUAL 6010.55-M, AUGUST 1, 2002
CHAPTER 8, SECTION 2
SKILLED NURSING FACILITY (SNF) PROSPECTIVE PAYMENT SYSTEM (PPS)

360-day assessment 8I
Post 360-day assessments with 30-day interval 8X

12. Upon completion of the requisite HIPPS coding, when TRICARE is the primary payer, the SNF will submit the claim to the TRICARE claims processor for payment only after the beneficiary has been admitted, has satisfactorily met the qualifying coverage criteria and has had an appropriate MDS assessment completed. When TRICARE is the secondary payer, the claim will be submitted in accordance with standard billing procedures.

13. Consistent with Medicare’s SNF Prospective Payment System (PPS) methodology, under the TRICARE SNF PPS:

a. The PPS payment rates will cover all costs of furnishing covered SNF services (routine, ancillary, and capital-related costs).

b. The PPS per diem payment rate is the sum of three parts - - the nursing component, the therapy component and the non-case-mix component. The nursing component includes nursing, social service and non-therapy ancillary costs (such as medications, laboratory tests, radiology procedures, respiratory therapy, medical supplies, and intravenous therapy). The therapy component includes physical, occupational and speech-language therapy costs. The non-case-mix component includes administrative, overhead and other generally fixed patient care costs (such as dietary services).

c. The MDS data are used to classify residents into one of 44 case-mix RUGs. (The latest version of this classification system is RUG-III). Each of these 44 RUG-III subgroups is assigned a relative weight factor (when applicable) to determine the nursing component and the therapy component of the total PPS rate. The relative weight factor reflects the costliness of providing services to residents in that group relative to the average costliness of residents across all groups. The relative weight factor is multiplied by the applicable nursing or therapy base rate (urban or rural) which results in the nursing component and the therapy component of the total rate. Patients who are expected to be more resource-intensive (based on the MDS assessment), are assigned to a RUG-III category that carries a higher relative weight factor. The non-case-mix component is not adjusted. The total PPS payment rate is the sum of the nursing component, the therapy component and the non-case-mix component. The labor portion of the total PPS payment rate is then adjusted for geographic variation in wages using the wage index. Contractors are not required to do these calculations as all of these calculations are automated in using the RUG-III pricer software. For illustration purposes, the per diem rate calculation is included as [Chapter 8, Addendum D](#).

d. Section 4432(b) of the Balance Budget Act of 1997 sets forth a consolidated billing requirement applicable to all SNFs providing Medicare services. Under this requirement, SNFs must submit to Medicare all bills for Medicare-covered services furnished to their residents, regardless of who provides the services. This requirement is similar to the requirement that has been in effect for inpatient hospital services. TRICARE is adopting the Medicare's consolidated billing requirements applicable to SNFs. Services excluded from consolidated billing have been mandated by the provisions of two separate pieces of legislation. First, there are several services that are beyond the general scope of SNF

TRICARE REIMBURSEMENT MANUAL 6010.55-M, AUGUST 1, 2002

CHAPTER 8, SECTION 2

SKILLED NURSING FACILITY (SNF) PROSPECTIVE PAYMENT SYSTEM (PPS)

comprehensive care plans (excluded under 42 CFR 411.15 (p)(3)(iii)). Second, there are several other services excluded from consolidated billing per the provisions of Section 1882(c)(2)(A)(iii) of the Social Security Act, as amended by Section 103 of the Balanced Budget Refinement Act of 1999 (BBRA). A comprehensive listing of these services excluded from consolidated billing is provided in [paragraph IV.C.13.e.](#) below. The contractor will not issue benefit modifications for non-Medicare covered, medically necessary services for TRICARE beneficiaries receiving SNF care. There will be no benefit exceptions permitted. Services excluded from the consolidated billing provisions of the SNF PPS (e.g. cardiac catheterizations and emergency services, etc.) will be paid at the TRICARE rates.

e. The cost of the following services will be excluded from the SNF PPS rate. These services may be billed directly and paid separately using TRICARE rates. The “technical” component of a covered SNF service is included in the PPS rate and the “professional” component is not which is to be billed separately. The identifying codes for those services excluded from the consolidated billing provisions of the SNF PPS are provided in the CMS Program Memorandum at [Chapter 8, Addendum E.](#) With regard to these identifying codes, the contractors should program to call a table, so as changes occur the contractor can simply replace the table. TMA may annually update the [Chapter 8, Addendum E](#) (or as needed) via a contracting officer letter. Contractors will closely monitor billings and claims to prevent any duplicate billings.

(1) Services provided to individual SNF residents by authorized practitioners, such as, physicians, certified nurse-midwives, clinical psychologists, certified clinical social workers, nurse anesthetists;

(2) Home dialysis supplies and equipment;

(3) Erythropoietin (EPO) for dialysis patients as provided in Medicare's SNF Manual, Chapter V, Section 543, which may be accessed at http://www.hcfa.gov/pubforms/12_SNF/sn500.htm;

(4) Hospice care related to a beneficiary's terminal condition. Such hospice care will be excluded from the consolidated billing provisions of the SNF PPS and will be reimbursed in accordance with the TRICARE hospice benefit.

(5) An ambulance trip that transports a beneficiary to the SNF for the initial admission or from the SNF following a final discharge. If the beneficiary is a resident of the SNF, then ambulance services are covered under consolidated billing and are included in the bundled rate. The initial admission ambulance ride and the final discharge ambulance ride are not covered under consolidated billing because the patient is not considered a SNF resident. (42 CFR 411.15 (p) (3)(I)-(iv). TRICARE will follow CMS policy for medical necessity for ambulance transportation (42 CFR 410.40(d)(1)) which is consistent with the TMA policy;

Note to [paragraph IV.C.13.e.\(5\)](#): If the beneficiary meets the criteria of a SNF resident, then ambulance transportation for “medically necessary” services are covered under consolidated billing and are included in the bundled SNF PPS rate. However, when a SNF resident leaves the SNF to receive any outpatient hospital services that are specifically excluded from consolidated billing (e.g. cardiac catheterization, CT scans, MRIs, emergency room services, etc), then that beneficiary is no longer considered to be a SNF resident for

TRICARE REIMBURSEMENT MANUAL 6010.55-M, AUGUST 1, 2002
CHAPTER 8, SECTION 2
SKILLED NURSING FACILITY (SNF) PROSPECTIVE PAYMENT SYSTEM (PPS)

consolidated billing purposes. As such, any associated ambulance trips themselves would be excluded from consolidated billing. Such ambulance trips associated with the receipt of excluded services are not included in the bundled SNF PPS rate and may be billed separately to Part B (Medicare) and TRICARE. If the beneficiary leaves the SNF to receive outpatient hospital services that are excluded from consolidated billing, then by definition that beneficiary no longer retains the status of a SNF "resident". See Medicare fact sheet regarding consolidated billing and ambulance services at [Chapter 8, Addendum F](#) which is being adopted for TRICARE.

(6) Chemotherapy items and administration services;

(7) Radioisotope services;

(8) Customized prosthetic devices;

(9) Ambulance transportation for dialysis;

(10) Certain outpatient services when provided in a hospital (including associated medically indicated ambulance transport) as these services are considered beyond the scope of the SNF care. Pre-authorization of MRIs for SNF residents would be subject to MCSC discretion:

- Cardiac catheterization
- CT scans
- MRIs
- Ambulatory surgery performed in operating rooms
- Emergency services
- Radiation therapy
- Angiography
- Venous and lymphatic procedures.

Note to [paragraph IV.C.13.e.\(10\)](#): If the listed service is delivered in another setting (such as an ambulatory surgery center or imaging center) or if another (not excluded) service is provided in a hospital outpatient department (such as an x-ray), the beneficiary is still considered a SNF resident, and the service, and payment for it, is included in the SNF PPS rate.

f. If the SNF submits a PPS claim that also includes an excluded service (see [paragraph IV.C.13.e.](#) above), the service that is excluded will be ignored and the claim will process and pay as it would without the excluded service. The SNF PPS claims are priced strictly on the RUG-III groups, and none of the ancillaries are themselves paid. If the SNF claim is just for the excluded service that SNFs may not bill, the claim will be rejected, and an explanation should appear on the explanation of benefits. This is similar to a denial, but does not carry appeal rights.

14. SNF Pricer.

a. TMA will provide the annual SNF PPS pricer cartridge to the claims processors with the issuance of this instruction. Any updated pricer cartridge will be provided to the claims processors upon receipt from CMS (annually and/or about each quarter) and the claims processors are required to replace the existing pricer with the updated pricer within 10 calendar days of receipt. As the annual or quarterly pricer cartridge totally replaces the previous pricer, claims processors are not required to maintain quarterly iterations. Claims processors must maintain the last version of the pricer software for each prior fiscal year and the most recent quarterly release of the current fiscal year.

b. Claims processors will use the 100% of the PPS rate and override any rate that is less than 100% of the PPS rate. For the call to the SNF pricer the claims processors should use the following:

1. HIPPS = HIPPS code from claim
2. EFFECTIVE DATE = end date of service or through date from claim
3. FEDERAL BLEND = 4
4. FACILITY RATE = 0

The federal blend and facility rate fields were used to provide a percentage mixture between straight PPS and facility rate payments. During Medicare's phase in period Federal blend went from 0 - 4 and this caused a percentage of the facility rate to be part of the PPS calculations. Now that the PPS is fully phased in TRICARE will use Federal Blend of 4 and no percentage of the old facility rate.

c. The pricer will automatically give the contractor the calculated rate for a one day stay for the claim's dates of service. Contractors will need to multiply the PPS rate given to the revenue 022 line units on the claim to come up with the complete rate for that HIPPS claim line.

d. Since claims will be paid based on the end date of service or the through date, claims will not need to be split when they cross Fiscal year dates.

e. For information purposes, Kennell & Associates will electronically transmit the current Wage Index file and the and the SNF PPS rates annually to TMA and the contractors. The current wage indices and the SNF PPS rates are provided in Chapter 8, [Addendums G, H, and I](#).

15. If the SNF does an off-schedule assessment, a late patient assessment or, in some cases, no patient assessment at all, the SNF will submit the claim using the default HIPPS rate code of AAA and the two-digit default assessment indicator modifier code of 00 which will result in payment of the Default rate.

16. With regard to payment for the lower 18 RUGs (i.e. IB2, IB1, IA2, IA1, BB2, BB1, BA2, BA1, PE2, PE1, PD2, PD1, PC2, PC1, PB2, PB1, PA2, PA1), TRICARE will follow Medicare criteria as specified in [Chapter 8, Addendum B](#). Beneficiaries in the lower 18 RUGs

TRICARE REIMBURSEMENT MANUAL 6010.55-M, AUGUST 1, 2002

CHAPTER 8, SECTION 2

SKILLED NURSING FACILITY (SNF) PROSPECTIVE PAYMENT SYSTEM (PPS)

do not automatically qualify for SNF coverage. Instead, these beneficiaries will be individually reviewed to determine whether they meet criteria for skilled services and the need for skilled services as defined in 42 CFR 409.32 (a) - (c). In determining "medical necessity", the contractor will use generally acceptable criteria such as InterQual. If SNF services are determined not to be medically necessary under Medicare, they will not be covered under TRICARE.

17. Under TRICARE, SNFs are required to be Medicare-certified and they are required to enter into a participation agreement with TRICARE. The cover letter to SNFs and the Participation Agreement are provided at [Chapter 8, Addendum H](#) which the contractor will send to SNFs. The contractor will be responsible for verification that the SNF is Medicare-certified, and has entered into a Participation Agreement with TRICARE. TRICARE will not permit a waiver to allow non-Medicare certified SNFs to be authorized SNFs under TRICARE. Non-participating SNFs will not be eligible for reimbursement under TRICARE. If a PPS claim is received from a SNF that has not signed a TRICARE Participation Agreement, the contractor will pend the claim and send a Participation Agreement to the SNF for signature. Once the SNF has signed the Participation Agreement, the claim will be processed provided the SNF was Medicare certified and met all other TRICARE SNF criteria at the time when the services were furnished to the TRICARE beneficiary.

Note to [paragraph IV.C.17.](#): VA facilities are required to be Medicare approved or they are required to be JCAHO accredited in order to have deemed status under Medicare or TRICARE. The VA facilities that enter into an MOU with DoD are not required to enter into the Participation agreement provided at [Chapter 8, Addendum H](#).

18. At their own discretion, the contractors may conduct any data analysis to identify aberrant PPS providers or those providers who might inappropriately place TRICARE beneficiaries in a high RUG.

19. Refer to the TRICARE Systems Manual, [Chapters 2 and 4](#) for the SNF PPS related revenue and edit codes.

D. For Admissions on or after (TBD), when TRICARE is Secondary Payer to Medicare:

1. TRICARE is the secondary payer to Medicare for SNF care for beneficiaries under age 65 who are eligible for Medicare, with no OHI and for beneficiaries age 65 and over who are eligible for Medicare with less than a 100-day covered Medicare SNF stay with no OHI.

2. The beneficiary has no liability under Medicare for days 1 through 20 therefore, there will not be any unpaid amount for TRICARE to reimburse until day 21. For days 21 to 100, the beneficiary does have a cost-share for which TRICARE will pay the remaining liability as secondary payer.

3. The Medicare-eligible patient will be assessed by the SNF using the MDS.

4. The MDS data will be run through the MDS RUG-III grouper to generate a three-digit RUG-III code. The RUG-III grouper software assigns a RUG-III code for billing and payment purposes. Each Medicare-certified SNF must process the MDS assessment data by using the RUG-III grouper. A two-digit modifier will be added to this to get the 5-digit HIPPS

code which the SNF will put on the claim and send that to the Medicare claims processor for payment.

5. For TFL beneficiaries, the Medicare claims processor will pay the SNF claim as the primary payer and then electronically submit the claim to the TRICARE contractor for secondary payer purposes.

6. For a beneficiary who is both Medicare and TRICARE eligible, TRICARE can pay secondary for a SNF that participates in Medicare without a Participation Agreement with TRICARE. However, TRICARE cannot pay primary without a Participation Agreement with TRICARE.

7. As secondary payer, TRICARE will use Medicare's determination of coverage rather than performing an additional review. If Medicare denies the services as not medically necessary, TRICARE will also deny the care and the beneficiary will have appeal rights through Medicare.

V. MISCELLANEOUS POLICY

A. TMA will follow CMS policy regarding use of the default payment rate whenever the SNF does an off-schedule assessment, a late patient assessment, or in some cases, no patient assessment at all (but can prove patient eligibility). The default payment will always be equal to the lowest RUG-III group rate (currently, this is the payment rate for PA1).

B. Preauthorization is not a requirement for SNF care. TRICARE contractors, at their discretion, may preauthorize the SNF admission and may conduct concurrent or retrospective review for Standard, Extra and TFL patients when TRICARE is the primary payer. The review required for the lower 18 RUGs is a requirement for all TRICARE patients when TRICARE is primary (see [paragraph IV.C.16.](#)). There will be no preauthorization or review for Standard, Extra or TFL patients where TRICARE is the secondary payer. The existing referral and authorization procedures for PRIME beneficiaries will remain unaffected.

C. Supplemental care benefits for Active Duty Service Member (ADSM) will be paid according to the TRICARE SNF PPS. If the ADSM is enrolled to a military treatment facility (MTF), this care must be approved by the MTF. Otherwise the care will be approved by the Service Point of Contact/Military Medical Support Office (SPOC/MMSO). TRICARE will pay the claim and the ADSM will not have any out-of-pocket expense.

D. SNF PPS will apply to Transitional Assistance Management Program (TAMP) beneficiaries.

E. SNF PPS will apply to Continued Health Care Benefit Program (CHCBP) beneficiaries.

F. SNF PPS claims are required to be filed sequentially at least every 30 days. Current timeliness standards will continue to apply which require claims to be filed within one year after the date the services were provided or one year from the date of discharge for an

TRICARE REIMBURSEMENT MANUAL 6010.55-M, AUGUST 1, 2002
CHAPTER 8, SECTION 2
SKILLED NURSING FACILITY (SNF) PROSPECTIVE PAYMENT SYSTEM (PPS)

inpatient admission for facility charges billed by the facility. If a claim is not filed sequentially, the contractor may return that to the submitting SNF.

G. TRICARE will allow those hospital-based SNFs with medical education costs to request reimbursement for those expenses. Only medical education costs that are allowed under the Medicare SNF PPS will be considered for reimbursement. These education costs will be separately invoiced by hospital-based SNFs on an annual basis as part of the reimbursement process for hospitals (see [Chapter 6, Section 8](#)). Hospitals with SNF medical education costs will include appropriate lines from the cost report and the ratio of TRICARE days/total facility days. The product will equal the portion that TRICARE will pay. TRICARE days do not include any days determined to be not medically necessary, and days included on claims for which TRICARE made no payment because other health insurance or Medicare paid the full TRICARE allowable amount. The hospital's reimbursement requests will be sent on a voucher to the TMA Finance Office for reimbursement as a pass through cost.

H. Critical Access Hospital Swing Beds.

1. TRICARE will follow CMS policy regarding Critical Access Hospital (CAH) swing beds and exempt CAH swing beds from the SNF PPS. Section 203 of the Medicare, Medicaid, and SCHIP Benefits Improvement and Protection Act of 2000 [Pub. L. 106-554], exempted CAH swing-beds from the SNF PPS. Accordingly, it will not be necessary to complete an MDS assessment for CAH swing-bed SNF resident. The CAH will directly bill the claims processor for the services received. Under the TRICARE benefit, CAHs will be reimbursed for their swing-bed SNF services as provided in [Chapter 8, Section 1, paragraph III.A](#). Currently, the list of current CAHs can be accessed at <http://www.rupri.org/rhfp-track/publiclists.html> or <http://www.ruralresource.org/index.asp>.

2. The CAH swing bed claims can be identified by the Medicare provider number (UB-92, block 51). There are two provider numbers issued to each CAH with swing beds. One number is all numeric and the second number is an alpha "z" in the third digit. For example, the acute beds would use 131300 and the swing beds 13z300. Other than the z the numbers are identical. The first two digits identifies the State code, and the 1300-1399 series identifies the CAH category.

I. Children under age 10 at the time of admission to a SNF will not be assessed using the MDS. TRICARE contractors will determine whether SNF services for these pediatric residents are covered based on the criteria of skilled services defined in 42 CFR 409.32 (as outlined in [Chapter 8, Addendum B](#)). The criteria used to determine SNF coverage for a child under the age of 10 will be the same whether that child is or is not Medicare-eligible. SNF benefit requirements will apply to these pediatric patients. If TRICARE is the primary payer, it will be up to the discretion of the TRICARE contractor to require preauthorization. SNF care for children under age 10 will be paid as provided in [Chapter 8, Section 1, paragraph III.A](#). The TRICARE contractor will have the ability to negotiate these reimbursement rates.
