

MANAGED CARE SUPPORT CONTRACTOR (MCSC) RESPONSIBILITIES FOR CLAIMS PROCESSING

ISSUE DATE: October 15, 1999

AUTHORITY: 32 CFR 199.1(b)(1)

I. GENERAL

A. The purpose of the following **TRICARE Overseas Program (TOP)** claims processing procedures are to help ensure that all claims for care received by TOP eligible beneficiaries are processed in a timely and consistent manner and that government furnished funds are expended only for those services and supplies authorized under TRICARE while still allowing for the cultural differences unique to foreign countries and their health care systems. (See [Chapter 12, Section 1.1](#) for TOP Benefit Plans.)

B. With the exception of Puerto Rico, the overseas Managed Care Support Contractor (MCSC), **South Region (hereinafter known as the "overseas claims processing contractor")** shall to the extent possible maximize the use of the TRICARE Operations Manual (TOM), TRICARE Systems Manual (TSM), and the TRICARE Policy Manual (TPM), unless otherwise stated in this chapter, when processing TOP eligible beneficiary claims, including active duty service member (**ADSM**) and reserve/national guard member claims which fall under the jurisdictional responsibility of the overseas **claims processing contractor** responsible for the processing of TOP claims. However, the TRICARE provisions for claims processing are not intended to be strictly applied to claims for services received in foreign countries. **The Commonwealth of Puerto Rico has been designated as a TOP Prime remote overseas location. In Puerto Rico, claims for TOP Prime enrollees shall be submitted starting May 1, 2004 but processed according to TOM, Chapter 8.** The overseas **claims processing contractor** shall exercise reasonable judgment to accommodate cultural differences relevant to the practices and delivery of health care services overseas.

C. **Prior to June 1, 2004, retail pharmacy claims for Puerto Rico, the U.S. Virgin Islands, and Guam were processed through the overseas claims processing contractor. As of June 1, 2004, all pharmacy claims in Puerto Rico, the U.S. Virgin Islands, and Guam are processed by the TRICARE Retail Pharmacy (TRRx) contractor. The TRICARE Puerto Rico Contractor (TPRC) cannot submit pharmacy claims, except for pharmacy that is part of an emergency room visit or inpatient treatment. Any prescriptions from this care that are not provided at time of treatment for inpatient/emergency care, shall be required to be submitted through the retail pharmacy contractor.** Copays will apply. If an enrolled active duty family member (**ADFM**) beneficiary in Puerto Rico, U.S. Virgin Islands, or Guam utilizes a non-network pharmacy, Point of Service (POS) charges including deductibles and cost-shares will apply. Pharmacy claims in the U.S. Virgin Islands for emergent/inpatient services may be submitted to the overseas **claims processing contractor** by the TRICARE Global Remote

Overseas (TGRO) **healthcare** contractor. For America Samoa (AS) and all other overseas areas, there will be no copays for Prime enrollees and these claims will be processed through the overseas **claims processing contractor**. **Non-enrolled ADFMs (Standard), retirees or their family members residing overseas obtaining prescription from an overseas host nation pharmacy shall submit their claims to the overseas claims processing contractor. TRICARE Standard cost-share provisions will apply. All pharmacy claims must process through the TRRx contractor except as noted in this paragraph.**

D. The TRICARE Prime Remote for Active Duty Family Members (TPRADFM) program **which is available in the continental United States (CONUS)** (see the TOM, [Chapter 17, Section 6](#)) does not apply to ADFM enrollees in areas outside the 50 United States.

High volume providers (determined by total pharmacy services billings exceeding \$3,000 in the previous 12 months) identified shall be sent the provider notification letter (see [Figure 12-12.2-8](#)) advising them of the TOP NDC submission requirements and payment for drugs as required in TRM, [Chapter 1, Section 15](#) and this section. The electronic report shall arrive no later than the 15th of month in which it is due. As other countries are added, the report shall include these countries.

20. For the Philippines and other nations as may later be determined by the Government, the contractor shall quarterly determine the top 10% of institutional and individual professional providers. The contractor shall return a copy of all claims received from these providers to the provider's practice address requesting the providers signature on the attestation at [Figure 12-12.2-17](#). Only the original signature of the provider is acceptable. For institutional providers, the signature shall be that of the institution's chief executive. Claims shall be pended for 35 calendar days following the mailing of the attestation and a copy of the claim. If no response is received within 35 calendar days, the contractor shall deny the claim.

21. The overseas claims processing contractor shall provide an electronic report, annually (by fiscal year), identifying all high volume overseas pharmacy providers that have exceeded the \$3000, per year billing cap for pharmacy services to the appropriate TMA COR, 16401 East Centretch Parkway, Aurora, CO 80011-9066. The reports shall identify the provider, the provider total billed amount, the total amount paid to the provider, and the total amount paid by the government. Upon receipt, the government shall review the report and may notify the overseas claims processing contractor to issue a provider notification letter (see [Figure 12-12.2-8](#)) to TMA identified overseas pharmacy providers in other countries than the Philippines, Panama and Costa Rica that have exceeded the \$3000 per year billing cap on pharmacy services. The report shall arrive by the 15th of October for the preceding fiscal year (October 1 through September 30). As other countries are added, the report shall include these countries.

22. For those providers identified annually as high volume providers (determined by total pharmacy services billings exceeding \$3,000 in the previous 12 months), the overseas claims processing contractor shall be required to submit a report annually, by country and provider, which tracks the number of claims, dollars amounts billed vs. paid before the above process was implemented and compares it to the number of claims, dollars amounts billed vs. paid after the above process was implemented. The report shall arrive no later than the 15th of the month in which it is due. As other countries are added, the report shall include these countries.

23. The CONUS claims processing contractor is not required to certify host nation providers for care received by CONUS beneficiaries (Prime/Standard) who travel overseas and required/received care.

F. Enrollment.

1. The overseas claims processing contractor is not responsible for enrollment requirements outlined in the TOM, [Chapter 6, Section 1](#), for TOP eligible beneficiaries.

2. When processing claims, the overseas claims processing contractor shall consider the requirements for Enrollment Portability, Split Enrollment, Disenrollment and TRICARE Plus outlined in the TOM, [Chapter 6](#) and related requirements outlined in this chapter.

G. Utilization Management/Authorizations.

1. The overseas claims processing contractor is not required to develop a Utilization Management Plan/Program, a Clinical Quality Management Program or develop a plan for interacting with the National Quality Monitoring contractor as outlined in the TOM, [Chapter 7](#).

2. The overseas claims processing contractor is required to advise their customers of those overseas benefits/countries requiring preauthorization/authorization before payment can be made and of the procedures for requesting preauthorization/authorization. Although beneficiaries are required to obtain authorization for care prior to receiving payment for the care requiring TOP preauthorization/authorization, TOP preauthorization/authorization may be requested following the care from the appropriate authority for issuing authorizations (see [Chapter 12, Section 8.1](#)). The overseas claims processing contractor shall document preauthorization/authorizations according to current contract requirements.

3. If medical review is required to determine medical necessity of a service rendered, the overseas claims processing contractor shall follow the requirements outlined in the TOM, [Chapter 7, Section 1](#) related to medical review staff qualifications and review processes.

4. The TOP preauthorization/authorization must be submitted with the claim or be available on Defense Enrollment Eligibility Reporting System (DEERS) or when fully implemented the TRICARE Enterprise Wide Referral and Authorization Program (EWRAP).

5. Upon instruction from the TMA Contracting Officer, Nonavailability Statement (NAS) reason for issuance codes 7, 8, and 9 will be conveyed via ANSI ASC X12N 278 transactions from the TRICARE EWRAP. When fully implemented, the overseas claims processing contractor is required to accept and store and access the NAS (care authorization) information for claims processing and other contractual purposes. When fully implemented, the overseas claims processing contractor shall no longer accept paper authorizations from MTFs. The overseas claims processing contractor must be able to receive NASs (care authorizations) in ANSI X12N 278 transactions and later referral and authorization data from the EWRAP in the form of HIPAA-compliant ANSI X12N 997 Functional Acknowledgements to the EWRAP should such acknowledgements be required and specified in the trading partner agreement between the overseas claims processing contractor and EWRAP.

6. The overseas claims processing contractor must maintain a preauthorization/authorization file.

7. When necessary, clarification of discrepancies between authorization data and data on the claims shall be made by the overseas claims processing contractor with the appropriate authorizing authority (see [Chapter 12, Section 8.1](#)).

8. The overseas claims processing contractor shall consider authorizations valid for 90 days (i.e., date of service must be within 90 days of issue date). The overseas claims processing contractor shall consider retroactive and chronic authorizations valid for the specific date/care authorized.

9. Procedures for preauthorizations/authorizations for CONUS inpatient mental health care have been developed between the overseas claims processing contractor's mental health contractor responsible for processing foreign claims and the overseas TAO Directors in coordination with the appropriate TMA COR. The mental health contractor is responsible for authorizing/review of all CONUS non-emergency inpatient mental health care for enrolled ADFM (i.e., Residential Treatment Center (RTC), Substance Use Disorder Rehabilitation Facility (SUDRF), etc.) and outpatient mental health care sessions nine and above per fiscal year for Prime overseas beneficiaries. To perform this requirement, the overseas claims processing contractor shall at a minimum provide three 24-hour telephone lines: one CONUS toll free, one commercial and one fax for overseas inpatient mental health review requirement, sample forms for use by the referring physician when requesting pre-authorization/authorization for care and the system for notification of the overseas claims processing contractor when care has been authorized. Additionally, the overseas claims processing contractor responsible for foreign claim shall:

a. Inform the beneficiary/provider if a desired facility is not a TRICARE authorized facility and offer the beneficiary/provider a choice of alternative facilities and assist with identifying CONUS facilities for referring providers.

b. Upon request, either telephonically or by fax, from a referring provider, the mental health review contractor will initiate preauthorization prior to admission for non-emergency inpatient care, including RTC, SUDRF, Partial Hospitalization Program (PHP), etc. (Essentially, all admissions defined by [Chapter 1, Section 7.1](#), as requiring preauthorization). The overseas claims processing contractor responsible for processing overseas claims will arrange ongoing utilization review, as indicated, for overseas beneficiaries admitted to any level of inpatient mental health care.

c. The review determination must conclude in either authorization or denial of care. Review results must be faxed to the beneficiary/provider within 24 hours of the request. The review and denial process will follow, as applicable the processes outlined in TOM, [Chapter 7](#).

(1) The mental health contractor will provide an opportunity to discuss the proposed initial denial determination with the patient's attending physician AND referring physician (if different providers). The purpose of this discussion is to allow further explanation of the nature of the beneficiary's need for health care services, including all factors which preclude treatment of the patient as an outpatient or in an alternative level of

inpatient care. This is important in those beneficiaries designated to return overseas, where supporting alternative level of care is limited, as well as support for intensive outpatient treatment. If the referring provider does not agree with the denial determination, then the contractor will contact the appropriate overseas TAO Director to discuss the case. The Overseas TAO Director will provide the schedule and contact information for all overseas TAO mental health advisors. The final decision on whether or not to issue a denial will be made by the mental health contractor.

(2) The mental health contractor will notify the referring provider if the patient is returning to ensure coordination of appropriate after-care arrangements, as well as facilitate discussion with the attending provider to ensure continuity of care is considered with the proposed after-care treatment plan.

d. The mental health contractor will adhere to the appeals process outlined in the TOM, [Chapter 13](#).

e. The mental health contractor will also notify the overseas claims processing contractor of the initial review determination and any pending appeals. The overseas claims processing contractor will use this information to process the claim.

f. The overseas claims processing contractor responsible for processing foreign claims shall notify the TAO Directors and TMA of any changes to phone and fax numbers.

10. If the overseas claims processing contractor has no record of referral/authorization, prior to denial/payment of the claim, the overseas claims processing contractor will follow the TOP POS rules, assuming the service would otherwise be covered under TOP, as outlined in [Chapter 12, Section 10.2](#).

11. For other than the TGRO contractor and TPRC, the overseas claims processing contractor shall develop procedures for the identification and tracking of TOP enrollee claims submitted by either a TOP host nation designated or non-designated overseas host nation provider without preauthorization/authorization. The overseas claims processing contractor shall provide an electronic file to be Microsoft Office compatible and sortable by all fields of all claims received without preauthorization/authorization or for services rendered by a host nation non-network provider sorted by TAO, DMIS-ID on the date of service, sponsor SSN, patient name, date of birth, date of care, Health Care Delivery Plan (HCDP) Coverage code, host nation provider of care, host nation providers address, with an ICD9, CPT-4 code, or brief description of the purpose of the visit or reason for referral (i.e., A=No Authorization, P=Non-Network Providers) and Internal Control Number (ICN) order weekly for appropriate TAO Director review. (See [Figure 12-12.2-2](#), [Figure 12-12.2-3](#), and [Figure 12-12.2-7](#).) Upon receipt of the first claim for a TOP-enrolled ADFM submitted by a TOP host nation designated or non-designated overseas host nation provider without preauthorization/authorization, the overseas claims processing contractor shall process the claim and waive application of POS charges for that claim. The overseas claims processing contractor shall use specific EOB messages advising the beneficiaries/host nation providers that authorizations are required on future claims to avoid POS payment. Upon receipt of the second and subsequent ADFM claims submitted by a TOP host nation designated or non-designated overseas host nation provider without preauthorization/authorization, the overseas claims processing contractor shall process the claims following POS payment procedures.

12. For the TGRO contractor and TPRC, the overseas claims processing contractor shall develop procedures for the identification and tracking of TOP enrolled claims submitted by either a beneficiary, a TOP host nation designated or non-designated overseas host nation provider without preauthorization/authorization. The overseas claims processing contractor shall provide weekly an electronic file to be Microsoft Office compatible and sortable by all fields of all claims received without preauthorization/authorization or for services rendered by a host nation non-network provider sorted by TAO, DMIS-ID on the date of service, sponsor SSN, patient name, date of birth, date of care, HCDP Coverage code, host nation provider of care, host nation provider's address, with an ICD9, CPT-4 code, or brief description of the purpose of the visit or reason for referral (i.e., A=No Authorization, P=Non-Network Providers) and ICN order for appropriate TAO Director review (see [Figure 12-12.2-2](#), [Figure 12-12.2-3](#), and [Figure 12-12.2-7](#)). Upon receipt of the first claim for a TGRO- or TPRC-enrolled ADFM submitted without preauthorization/authorization, the overseas claims processing contractor shall process the claim and waive application of POS charges. The overseas claims processing contractor shall use specific EOB messages advising the beneficiary/host nation providers that authorizations are required on future claims to avoid POS payment. Upon receipt of the second and subsequent ADFM claims submitted without preauthorization/authorization, the overseas claims processing contractor shall process the claims following POS payment procedures.

a. The following message shall be used on TGRO EOBs in Europe when a one-time waiver of POS charges has been granted:

"This claim has been processed and paid in full. However, we have no record of the services being coordinated with the TRICARE Global Remote Overseas (TGRO) Contractor. As a TGRO enrollee, all future health care must be coordinated with TGRO or these claims will be processed at Point-of-Service rates, including annual deductibles of \$300 per individual or \$600 per family, and a 50 percent cost share that you would be responsible to pay. If you have questions regarding your TGRO enrollment, please call the TGRO contractor at (44) 20-8762-8133 or contact your local TRICARE POC for the local toll-free access number. c. The following message shall be used on TGRO EOBs in TRICARE Pacific when a one-time waiver of POS charges has been granted:

“This claim has been processed and paid in full. However, we have no record of the services being coordinated with the TRICARE Global Remote Overseas (TGRO) Contractor. As a TGRO enrollee, all future health care must be coordinated with TGRO or these claims will be processed at Point-of-Service rates, including annual deductibles of \$300 per individual or \$600 per family, and 50 percent cost share that you would be responsible to pay. The TPRC Call Center is available around the clock to assist you with your healthcare needs by calling toll free at 800.700.7104.”

H. Claim Development.

1. General.

a. Development of missing information shall be kept to a minimum. The overseas **claims processing contractor** shall use available in-house methods, overseas **claims processing contractor** files, telephone, DEERS, etc., to obtain incomplete or discrepant information. If this is unsuccessful, the overseas **claims processing contractor** may return the claims to sender with a letter which indicates that the claims are being returned, the reason for return and requesting the required missing documentation. The overseas **claims processing contractor**'s system must identify the claim as returned, not denied. The overseas **claims processing contractor** shall review all claims to ensure TOP required information is provided prior to payment.

NOTE: The overseas claims processing contractor shall accept APO/FPO for the beneficiary address.

b. The following minimal information is required on each overseas claim prior to payment.

- (1) Beneficiary/host nation provider signatures.

(2) Complete host nation provider name and address.

(3) For TGRO contract and TPRC claims, for which web-based Government Inquiry for DEERS (WebGIQD) does not provide an address, the TGRO contractor and TPRC for remote areas may use the overseas address on the claims. If the overseas address is not available on the claim, the TGRO contractor and TPRC should obtain the address either from previously submitted claims, directly from the beneficiary via phone, fax or e-mail, or notify the TAO Director as appropriate.

(4) A valid payable diagnosis. Prior to returning a claim that is missing a diagnosis, the overseas claims processing contractor shall research their history and determine whether a diagnosis from a related claim can be applied.

(5) Identification of the service/supply/DME ordered, performed or prescribed, including the date ordered performed or prescribed. The overseas claims processing contractor may use the date the claim form was signed as the specific date of service, if the service/purchase date/order date is not on the bill. (See paragraph I.C., for further guidance on retail network pharmacy claims).

(6) Care authorizations for TOP Prime enrollees will not be required for any overseas area listed as a remote overseas area (see Figure 12-12.2-5). All overseas MTF areas DMIS-IDs will require care authorizations for care referred by an MTF before claims will be paid overseas. (See Figure 12-12.2-4 and Figure 12-12.2-6 for a listing of MTF areas/countries requiring authorization). (See Chapter 12, Section 8.1 for additional requirements on care authorizations overseas). TGRO/TPRC enrollees must obtain care authorization for non-urgent/emergent care. (See Chapter 12, Section 10.2 for additional information on POS for ADFM enrollees.)

(7) Itemization of total charges. (Itemization of hospital room rates are not required on institutional claims).

(8) For TGRO claims, itemization of total charges for commercial air transports are not required.

c. Usual TRICARE Program itemization requirements are not required if the overseas claims processing contractor determines the service/supply/pharmacy/DME is determined to be a benefit of the TOP except for overseas pharmacy claims submitted by high volume overseas providers of pharmacy services. The overseas claims processing contractor shall return all claims from overseas pharmacy services submitted by high volume overseas providers without NDC coding (where required), unless the provider has been granted a waiver by TMA as outlined in paragraph V.H.1.e. below.

d. This can vary by country, but drugs identified as non-prescription (over-the-counter) are to be denied. The overseas claims processing contractor may use the Blue Book as a reference source for processing drug related TRICARE overseas claims. Other claims for medications prescribed by a host-nation physician, and commonly used in the host-nation country, may be cost-shared. Pharmaceuticals provided under the TGRO contractor and TPRC for inpatient/emergent care must meet U.S. equivalent or international standards.

Medications that are considered over-the-counter by U.S. standards are not authorized for payment. Also, see [paragraph I.C.](#) for further guidance on retail network pharmacy claims.

e. The overseas **claims processing contractor** shall use \$3,000 as the overseas pharmacy service drug tolerance. A limited waiver to the NDC coding and payment requirements (**where required**) may be granted for overseas pharmacy services claims submitted from low volume/small overseas pharmacy providers or TRICARE eligible beneficiaries from the Philippines, Panama and Costa Rica and any other country designated by TMA, when it would create an undue hardship on a beneficiary. High volume overseas pharmacy providers from the Philippines, Panama and Costa Rica and any other country designated by TMA would not qualify for the limited waiver.

f. Claims for durable medical equipment (DME) involving lease/purchase shall always be developed for missing information. For TGRO claims, the contractor shall consider DME as authorized and not require the usual information necessary to process the claim.

g. The overseas **claims processing contractor** shall use Extended Care Health Option (ECHO) claims processing procedures outlined in [Chapter 9, Section 18.1](#), when processing ECHO overseas claims.

h. The overseas **claims processing contractor** shall deny claims from non-certified or non-confirmed host nation providers when TMA **has** directed overseas **claims processing contractor** certification/confirmation of the host nation provider prior to payment.

i. Requests for missing information shall be sent on the overseas **claims processing contractor** TRICARE/TOP letterhead. When development is necessary in TRICARE Europe Region, the overseas **claims processing contractor** shall include a special insert in German, Italian and Spanish which indicates what missing information is required to process the claim and includes the overseas **claims processing contractor** address for returning requested information.

j. If the overseas **claims processing contractor** elects to develop for additional/missing information, and the requests for additional information are not received/returned within 35 days the overseas **claims processing contractor** shall deny the claim.

l. Other TOP Claim Processing Requirements.

1. The overseas **claims processing contractor** must have an automated data system for eligibility, deductible and claims history data and must maintain on the automated data system all the necessary TOP data elements to ensure the ability to reproduce both TED and EOBs as outlined in the TOM, [Chapter 8, Section 8](#), except for requiring overseas providers to use Health Care Procedure Coding System (HCPCS) to bill outpatient rehabilitation services, issue provider's the Form 1099 and suppression of checks/drafts for less than \$1.00. The overseas **claims processing contractor** is allowed to split claims to accommodate multiple invoice numbers in order to reference invoice numbers on EOBs when necessary.

2. The overseas **claims processing contractor** shall not pay for pharmacy services obtained through the internet.

TRICARE POLICY MANUAL 6010.54-M, AUGUST 1, 2002

CHAPTER 12, SECTION 11.1

3. The overseas **claims processing contractor** shall pay all non-emergency and emergency civilian/medical surgical and dental claims for TRICARE Europe and **TLAC ADSM** health care even when not a TRICARE **covered** benefit when the claim is:

a. Submitted by the MTF or other military command personnel, or by a designated POC; and

b. Accompanied by a completed and signed TRICARE claim form; and

c. Accompanied by either a Standard Form 1034, a Standard Form 1035 continuation sheet, a NAVMED 6320/10 (these forms shall be considered an authorization for payment); or an **authorization letter from the TGRO contractor/TPRC (these forms shall be considered an authorization for payment)**; and

NOTE: The SF 1034, SF 1035 continuation sheet or **NAVMED** 6320/10 must be signed by the submitting military command. If a patient signature is not present on the claim form, the military command must submit a letter of explanation with the unsigned claim form prior to payment.

d. DEERS verification indicates the TRICARE Europe and **TLAC ADSM** was on active duty at the time the services were rendered.

4. Upon payment for a TOP enrolled **ADSM** overseas claim, a copy of the EOB and, when applicable, the SF 1034 or SF 1035 or NAVMED 6320/10, shall also be **manually** submitted to the MTF, or MTF command personnel, or a designated POC.

5. Emergency submitted non-remote TRICARE Europe and **TLAC ADSM** claims for health care received overseas/**CONUS** not meeting **Chapter 2, Section 6.1** policy on emergency department services shall be denied explaining the reason of denial and advising resubmission with proper forms by the appropriate MTF, etc.

6. The overseas **claims processing contractor** shall deny non-remote TRICARE Europe and **TLAC ADSM** claims for health care received overseas when any one of the administrative items outlined above in **paragraph VI.3.a. - d.** are missing. Upon denial, the overseas **claims processing contractor** shall instruct the non-remote TRICARE Europe and **TLAC ADSM**/host nation provider to contact the local MTF or other military command personnel, for assistance in proper claim submission and in obtaining missing documentation. Copies of EOBs and claims denied as DEERS ineligible or not submitted by an MTF shall be electronically forwarded to the appropriate overseas **TAO** Director for further action.

7. The overseas **claims processing contractor** shall follow the additional specific processing procedures outlined in this chapter when processing claims for TRICARE Europe **ADSMs** stationed in Germany.

8. The overseas **claims processing contractor** shall pay all TOP non-assigned **ADSM CONUS** claims as outlined in **Chapter 12, Section 10.1.**

9. The TGRO contractors/TPRCs shall submit all remote area claims electronically to the overseas claims processing contractor. The TGRO contractor/TPRC is required to submit all claims in U.S. dollars.

10. The overseas claims processing contractor is required to receive TGRO contractor and TPRC electronic claims submitted in an X12 HIPAA-compliant format. The overseas claims processing contractor is responsible for entering into a trading partner agreement with the TGRO contractor/TPRC. The agreement shall include the companion document for submission of claims in the X12 format. Copies of the companion document and any updates shall be provided to the appropriate TMA COR.

11. Electronic claims not accepted by the overseas claims processing contractor's Electronic Data Information (EDI) system/program shall be rejected. Upon rejection by the overseas claims processing contractor EDI system/program, the overseas claims processing contractor shall advise the TGRO contractor and TPRC of the missing information needed for acceptance of the TGRO contractor and TPRC electronic claim by the overseas claims processing contractor's EDI system.

12. The TGRO contractor and TPRC shall ensure that when submitting electronic claims for outpatient services with dates of service not in the same month, claims crossing months must be submitted on separate lines in the Electronic Medical Claims (EMCs) submission (i.e., data entry at claims input must separate months by claim line item). TGRO contractor and TPRC electronic claims for institutional services (i.e., room and board charges), and professional charges may not be submitted on the same electronic claims submission. Institutional room and board charges which cross months may be submitted on the same claim but must be submitted using the UB-92 form. Institutional professional charges, etc., must be submitted using a non-institutional format. Institutional professional charges, etc. which cross months may be submitted on the same claim using separate line items. When in doubt about how to submit claims with multiple services, varying dates of service, etc., the TGRO contractor and TPRC shall contact the overseas claims processing contractor EMC's department for assistance in claims submission prior to the submission of the electronic claim.

13. For all overseas claims, including the TGRO contractor and TPRC claims, the overseas claims processing contractor shall create and submit TEDs following current guidelines in the TSM for TED development and submission. Except for TRICARE Europe non-remote ADSM claims, these claims shall be submitted on vouchers. TLAC ADSM claims shall be submitted on vouchers. Non-remote TRICARE Europe ADSM claims shall be submitted as batches. Claim information will be able to be accessed through the TRICARE Patient Encounter Processing and Reporting (PEPR) Purchased Care Detail Information System (PCDIS).

14. The overseas claims processing contractor shall process claims for TGRO contractor/TPRC claims following the guidelines outlined in this chapter.

15. The overseas claims processing contractor shall establish high dollar thresholds of \$5,000 for non-institutional claims and \$10,000 for institutional TOP claims. Claims exceeding these thresholds should be reviewed for medical necessity.

16. TGRO claims related to ambulance services are not required to be submitted using modifier codes for ambulance services.

17. TGRO contractor/TPRC claims either denied as “beneficiary not eligible” or “found to be not eligible on DEERS” shall request a “good faith payment” from the Beneficiary and Provider Services, 16401 East Centretech Parkway, Aurora, CO 80011-9066.

18. Normal TRICARE coverage limitations will not apply to services rendered to TPRC outpatient civilian claims for ADSM enrolled to the TPRC. Services that have been authorized by the TPRC will be covered regardless of whether they would have ordinarily been covered under TRICARE policy. Allowable amounts are to be determined based upon the TRICARE payment reimbursement methodology applicable to the services reflected on the claim. Reimbursement for services not ordinarily covered by TRICARE and/or rendered by a provider who cannot be a TRICARE authorized provider shall be at billed amounts. Cost sharing and deductibles shall not be applied to these claims.

J. Claims Auditing Software.

The Claims Auditing Software requirements outlined in the TRM, Chapter 1, Section 3 do not apply to TOP claims.

K. Application Of Deductible.

e. For Point of Sale or Vendor pharmacy overseas claims, TOP EOBs must have the name of the provider of service on the claim.

TRICARE POLICY MANUAL 6010.54-M, AUGUST 1, 2002

CHAPTER 12, SECTION 11.1

MANAGED CARE SUPPORT CONTRACTOR (MCSC) RESPONSIBILITIES FOR CLAIMS PROCESSING

f. EOBs shall be issued for each TGRO contractor/TPRC claim processed. EOB's shall be issued to the TGRO contractor/TPRC, the rendering provider, and remote site beneficiaries when the overseas claims processing contractor determines that Other Health Insurance (OHI) is available. The EOB should explain that OHI information is required prior to services being paid.

g. The overseas claims processing contractor shall insert the provider's payment invoice numbers in the patient's account field on all EOBs.

h. The following EOB message shall be used on overseas claims rendered by providers requiring TMA/TAO Director/their designee's certification and they have not been certified. "Your provider has not submitted documentation required to validate his/her training and/or licensure for designation as an authorized TRICARE provider."

M. Duplicate Payment Prevention.

The overseas claims processing contractor shall follow the duplicate payment prevention requirements outlined in the TOM, Chapter 8, Section 9 to include TGRO contractor/TPRC claims.

N. Double Coverage.

1. TOP claims require double coverage review as outlined in the TRM, Chapter 4.

2. TOP claims determined by the overseas claims processing contractor during processing to have OHI shall be denied. Beneficiary/provider disagreements of the overseas claims processing contractor determination shall be coordinated through the overseas TAO Director for resolution with the overseas claims processing contractor.

3. Overseas insurance plans such as German Statutory Health Insurance, Japanese National Insurance (JNI), and Australian Medicare, etc., are considered OHI. Claims involving JNI should include the Japanese insurance points. If the Japanese insurance points are not clearly indicated on the claim/bill, the overseas claims processing contractor shall contact the submitter or the appropriate TOP POC for assistance in determining the Japanese insurance points prior to processing the claim. When necessary, the overseas claims processing contractor may contact the appropriate overseas TAO Director for assistance.

4. For TGRO contractor and TPRC claims determined to have OHI, the overseas claims processing contractor will notify the TGRO contractor and TPRC of required OHI information via the EOB. Upon receipt of the EOB, the TGRO contractor and TPRC will contact the beneficiary to obtain the OHI information and resolve such claims. The appropriate overseas TAO Director shall notify the overseas claims processing contractor of the required OHI information, if known and will upon receipt of the OHI information provide the information to the overseas claims processing contractor. Upon notification, the overseas claims processing contractor shall reprocess the TGRO contractor and TPRC claim.
