

RESOURCE SHARING

1.0. RESOURCE SHARING PROGRAM AGREEMENTS

Resource sharing consists of internal resource sharing (where the purpose of the resource sharing agreement is to supplement the services provided at MTFs) and external resource sharing (where the purpose of the external resource sharing agreement enables military health care personnel, active duty and civilian, to provide covered medical services to active duty and TRICARE beneficiaries in a network facility.) The following procedures apply to both internal and external resource sharing:

- The contractor shall develop and implement a resource sharing program for seeking agreements with individual MTF Commanders for the provision of medical personnel (who must comply with DoD directives for licensure, clinical appointment with the MTF, and participation in quality assurance reviews), support personnel, equipment and equipment maintenance, and/or supplies, by the contractor from the contractor's provider network and from private sources outside of the network for the purpose of enhancing the capabilities of MTFs to provide needed inpatient and outpatient care to beneficiaries. This program shall also address opportunities for military health care personnel and support personnel to provide covered medical services to MHS beneficiaries in a network facility.

2.0. RESOURCE SHARING PROGRAM REQUIREMENTS

The contractor shall meet the following resource sharing program requirements:

- 2.1. Develop a draft plan for identifying advantageous Resource Sharing opportunities in conjunction with the Regional Director and the MTF Commanders.
- 2.2. Finalize the draft plan for submission through the Regional Director to the Contracting Officer for approval. The contractor shall submit the finalized plan to the Regional Director no later than 60 calendar days prior to the start of each new health care delivery option period. Annually thereafter, a revised plan shall be submitted to the Regional Director 60 days prior to the start of each new health care option period. The plan shall discuss the contractor's general approach and methods for facilitating the identification of resource sharing opportunities throughout the Region, an evaluation of the overall costs and savings potential agreements should generate for the MHS and the contractor, and the contractor's approach to the development of agreements which adhere to resource sharing guidelines in [paragraph 2.0.](#) of this section.
 - 2.2.1. For internal resource sharing agreements, the plan shall include a description of the contractor's proposed methodology for developing a detailed cost analysis for each

resource sharing proposal. The cost analysis shall include the contractor's actual cost of providing the personnel, equipment, equipment maintenance, and/or supplies, the anticipated increase in services provided within the MTFs, the anticipated support required from the MTFs (labor, supplies, etc.) and the net savings to the government and the contractor.

2.2.2. For external resource sharing agreements, the plan shall include a description of the contractor's proposed methodology for developing a detailed cost analysis for each resource sharing proposal. The cost analysis shall include the MTF's actual cost of providing the services, the monetary benefits received by the contractor, projected workload, administrative costs, and the contractor's actual cost of providing services in support of external resource sharing providers.

2.3. The contractor shall comply with the DoD Health Insurance Portability and Accountability Privacy Regulation. The contractor shall develop, document and incorporate into its resource sharing program functions policies and procedures ensuring compliance with HHS Privacy Regulations. The contractor shall require resource sharing providers to use the DoD HIPAA Notice of Privacy Practices and HHS Privacy Regulation compliant authorization forms, when applicable. The contractor shall coordinate with the appropriate Regional Director to determine how they may assist the Military Health System with dissemination of the Notice of Privacy Practices to applicable TRICARE beneficiaries whenever there is a material revision to the DoD Notice of Privacy Practices.

2.4. After contract award, the contractor shall provide the MTF Commanders with a complete cost analysis within 30 calendar days of a written request for consideration of a potential resource sharing opportunity by the MTF Commanders, provided that the MTF is able to provide the MTF-specific cost and workload information necessary to perform the analysis within 15 calendar days of making the written request. The 30 calendar days will be extended on a day-to-day basis if all of the necessary data is not provided by the 15th calendar day after the written request.

2.5. Develop and implement procedures for monitoring resource sharing agreement performances.

3.0. RESOURCE SHARING AGREEMENT GUIDELINES

3.1. Internal Resource Sharing

Internal resource sharing shall be based upon written agreements between the contractor and the MTF Commanders, with Regional Director concurrence, and between the contractor and the resource sharing provider(s), support personnel, and/or equipment and equipment maintenance vendors, and supply vendors. Before a provider is permitted to practice in the MTF, he or she must be granted privileges by the MTF Commander to do so, based upon his or her credentials, in accordance with applicable regulations. Internal resource sharing agreements shall fully set forth the terms, conditions, and limitations of the resource sharing arrangements. Internal resource sharing agreements may include professional and support personnel, equipment and equipment maintenance, and supplies. The contractor shall forward copies of all proposed internal resource sharing agreements to the Regional Director for approval. The Regional Director will provide the contractor written

approval/disapproval within 30 calendar days of receipt. The contractor shall forward copies of all proposed approved resource sharing agreements and all supporting pricing information for the agreement to the Contracting Officer no later than ten calendar days following written notification by the Regional Director of the approval of the agreement. Upon receipt of an approved resource sharing agreement the Contracting Officer will evaluate the agreement and supporting documentation and request from the contractor any necessary information to make a determination that the agreed to amount for the agreement is fair and reasonable. Once the Contracting Officer has determined the amount fair and reasonable, the Contracting Officer will issue a task order obligating funds for the agreement and authorizing the contractor to proceed with performance of the agreement. The contractor shall provide resource sharing clinical personnel for the MTF's credential review within 90 calendar days of the issuance of a task order. The contractor shall provide administrative support personnel *completed credentialing packet* fulfilling the requirements of the resource sharing agreement within 60 calendar days of the issuance of a task order. No services shall be provided until a task order is issued by the contracting officer.

3.2. External Resource Sharing

External resource sharing shall be based upon written agreements between the contractor, the MTF Commander, and the network facility, with the Regional Director's concurrence. Before a military provider is permitted to practice in the network facility, the MTF Commander will ensure that the military provider has active clinical privileges with the network facility. The MTF Commander will also ensure that external resource sharing providers are licensed to practice medicine in a United States jurisdiction during the term of the resource sharing agreement. The resource sharing agreement shall set forth all the terms, conditions and limitations of the resource sharing arrangements. The MTF Commander shall forward copies of all completed external resource sharing agreements to the Regional Director for approval prior to the implementation of any resource sharing agreement. The Regional Director will provide the contractor written approval/disapproval within 30 calendar days of receipt. The MTF Commander shall forward copies of all approved resource sharing agreements to the Contracting Officer no later than ten calendar days following written notification by the Regional Director of the approval of the agreement.

4.0. SELECTION OF PROVIDERS

The contractor shall obtain input from the MTF Commanders regarding the requirements or needs of the Commanders for internal resource sharing providers. Based upon this input, the contractor shall select the resource sharing providers without any further involvement of the Government in the selection process, except for the privileging of the providers by the MTF Commander after the selection has been made.

5.0. COSTS

5.1. Costs borne by the contractor in providing services to TRICARE beneficiaries in MTFs shall be the responsibility of the contractor, subject to the compensation arrangements specified in this contract.

5.2. Under the authority of 10 U.S.C. 1095 and 32 CFR 220.8(k).(2), internal resource sharing providers shall not bill for any form of third party payment. The MTF with which the

resource sharing agreement was entered into will bill for and retain all funds available from a third party. The resource sharing provider's compensation from the contractor, whether by way of salary, fee-for-service, or other means, is entirely independent of any claim to, or payment from, any third party payer.

6.0. PROFESSIONAL LIABILITY

6.1. Internal Resource Sharing

The contractor shall be solely liable for negligent acts or omissions of the contractor's agents and shall ensure that providers maintain full professional liability insurance.

6.2. External Resource Sharing

While performing health care functions authorized by the MTF, designated health care personnel will be acting within the scope of their duties as determined by the Department of Justice. The United States Government will be responsible for their actions within the scope of their duties. As such, any remedy for damages for personal injury, including death, caused by their negligence or wrongful acts or omissions shall be exclusively against the United States under provisions of the Federal Torts Claims Act (title 28 U.S.C., sections 1346(b), 2671-2680) and not against the individual military health care provider. In the event any DoD health care provider is asked to respond to an emergency involving a non-DoD beneficiary, the state's borrowed servant defense and any other applicable defenses and immunities available to the United States will apply to allegations of negligence or wrongful acts or omissions arising from care rendered by the provider.

7.0. CREDENTIALS, PRIVILEGING, AND OTHER PROVIDER REQUIREMENTS

All categories of staff provided by the contractor to the MTF shall meet the licensing and privileging requirements of [32 CFR 199.6](#). In addition, the staff members must agree to comply with the licensing and privileging directives of the MTF and to fully participate in MTF quality assessment and improvement activities required by the MTF. The contractor shall provide the MTF Commander with the original and one copy of all information on credentials for civilian providers working in the MTF. (The original document will be returned upon the completion of the MTF credentialing process.) The contractor is responsible for querying the National Practitioner Data Bank about each provider upon initial appointment and every two years thereafter and for providing the MTF Commanders with copies of the National Practitioner Data Bank report each time one is received on a resource sharing provider. DoD requirements for the basic credentials and privileging of health care providers are set forth in [32 CFR 199.6](#), and DoD Directives 6025.6, 6025.11, and 6025.14. The contractor shall provide the MTF Commanders with all documentation required by these and all applicable Army, Navy or Air Force directives at least 30 calendar days prior to the provider's first day of work in an MTF. For external resource sharing military health care personnel, the MTF Commanders will ensure that the military health care personnel are appropriately licensed and have active clinical privileges with the network facility.

8.0. SUPERVISION OF RESOURCE SHARING PERSONNEL

When contractor personnel are placed in MTF facilities, these personnel are supervised or controlled by the contractor for the purposes of directing the terms and conditions of employment. However, this does not preclude resource sharing personnel from complying with directions received from MTF professional personnel in the course of patient care activities. Additionally, these contractor furnished personnel shall comply with privileging requirements, utilization review / management criteria and procedures, quality assessment procedures and criteria, and peer review and quality of care reviews in accordance with the policy, procedures, and regulatory provisions established for government practitioners ([32 CFR 199.6](#); [32 CFR 199.15](#); and TRICARE Policy Manual, [Chapter 11](#)). With respect to external resource sharing agreements, the external resource sharing health care personnel's military command is responsible for the supervision of the external resource sharing health care personnel.

9.0. RECORD KEEPING

The contractor shall maintain accurate records to document activities related to resource sharing agreements. These records shall include accurate recording of the personnel performing services in network facilities or MTFs, identifying for each individual the name, social security number, type of provider or staff, the hours worked in the facility and/or MTF, and for internal resource sharing agreements, the associated workload, salaries, compensation and expenses for the individual. For equipment, records shall include identifying information, date placed in service, and maintenance information. For supplies, records of types and quantities supplied shall be recorded. For cash payments, records of expenditures shall be kept along with supporting receipts from the MTF. All costs borne by the contractor shall be identified. These records of resources shared shall be provided to the MTF Commanders (or their designees) and the Regional Directors no later than the last working day of the month following the month in which the reported workload was performed.

10.0. AUDITS

Contractor resource sharing expenditures are subject to audit by the government.
