

PART 199.12 - THIRD PARTY RECOVERIES

(a) General. This section deals with the right of the United States to recover from third-parties the costs of medical care furnished to or paid on behalf of TRICARE beneficiaries. These third-parties may be individuals or entities that are liable for tort damages to the injured TRICARE beneficiary or a liability insurance carrier covering the individual or entity. These third-parties may also include other entities who are primarily responsible to pay for the medical care provided to the injured beneficiary by reason of an insurance policy, workers' compensation program or other source of primary payment. Authority.

(b) Third-party payers. (1) This part implements the provisions of 10 U.S.C. 1095b which, in general, allow the Secretary of Defense to authorize certain TRICARE claims to be paid, even though a third-party payer may be primary payer, with authority to collect from the third-party payer the TRICARE costs incurred on behalf of the beneficiary. (See Sec. 199.2 for definition of "third-party payer.") Therefore, 10 U.S.C. 1095b establishes the statutory obligation of third-party payers to reimburse the United States the costs incurred on behalf of TRICARE beneficiaries who are also covered by the third-party payer's plan.

(2) Federal Medical Care Recovery Act. (i) In general. In many cases covered by this section, the United States has a right to collect under both 10 U.S.C. 1095b and the Federal Medical Care Recovery Act (FMCRA), Public Law 87-693 (42 U.S.C. 2651 *et. seq.*). In such cases, the authority is concurrent and the United States may pursue collection under both statutory authorities.

(ii) Cases involving tort liability. In cases in which the right of the United States to collect from an automobile liability insurance carrier is premised on establishing some tort liability on some third person, matters regarding the determination of such tort liability shall be governed by the same substantive standards as would be applied under the FMCRA including reliance on state law for determinations regarding tort liability. In addition, the provisions of 28 CFR part 43 (Department of Justice regulations pertaining to the FMCRA) shall apply to claims made under the concurrent authority of the FMCRA and 10 U.S.C. 1095b. All other matters and procedures concerning the right of the United States to collect shall, if a claim is made under the concurrent authority of the FMCRA and this section, be governed by 10 U.S.C. 1095b and this part.

(c) Appealability. This section describes the procedures to be followed in the assertion and collection of third-party recovery claims in favor of the United States arising from the operation of TRICARE. Actions taken under this section are not initial determinations for the purpose of the appeal procedures of Sec. 199.10 of this part. However, the proper exercise of the right to appeal benefit or provider status determinations under the procedures set forth in Sec. 199.10 may affect the processing of federal claims arising under this section. Those appeal procedures afford a TRICARE beneficiary or participating provider an opportunity for administrative appellate review in cases in which benefits have been denied and in which there is a significant factual dispute. For example, a TRICARE contractor may deny payment for services that are determined to be excluded as TRICARE benefits because they are found to be not medically necessary. In that event the TRICARE contractor will offer an administrative appeal as provided in Sec. 199.10 of this part on the medical necessity issue

TMA Version - April 2005

raised by the adverse benefit determination. If the care in question results from an accidental injury and if the appeal results in a reversal of the initial determination to deny the benefit, a third-party recovery claim may arise as a result of the appeal decision to pay the benefit. However, in no case is the decision to initiate such a claim itself appealable under Sec. 199.10.

(d) Statutory obligation of third-party payer to pay. (1) Basic Rule. Pursuant to 10 U.S.C. 1095b, when the Secretary of Defense authorizes certain TRICARE claims to be paid, even though a third-party payer may be primary payer (as specified under Sec. 199.8(c)(2)), the right to collect from a third-party payer the TRICARE costs incurred on behalf of the beneficiary is the same as exists for the United States to collect from third-party payers the cost of care provided by a facility of the uniformed services under 10 U.S.C. 1095 and part 220 of this title. Therefore the obligation of a third-party payer to pay is to the same extent that the beneficiary would be eligible to receive reimbursement or indemnification from the third-party payer if the beneficiary were to incur the costs on the beneficiary's own behalf.

(2) Application of cost shares. If the third-party payer's plan includes a requirement for a deductible or copayment by the beneficiary of the plan, then the amount the United States may collect from the third-party payer is the cost of care incurred on behalf of the beneficiary less the appropriate deductible or copayment amount.

(3) Claim from the United States exclusive. The only way for a third-party payer to satisfy its obligation under 10 U.S.C. 1095b is to pay the United States or authorized representative of the United States. Payment by a third-party payer to the beneficiary does not satisfy 10 U.S.C. 1095b.

(4) Assignment of benefits not necessary. The obligation of the third-party to pay is not dependent upon the beneficiary executing an assignment of benefits to the United States.

(e) Exclusions impermissible. (1) Statutory requirement. With the same right to collect from third-party payers as exists under 10 U.S.C. 1095(b), no provision of any third-party payer's plan having the effect of excluding from coverage or limiting payment for certain care if that care is provided or paid by the United States shall operate to prevent collection by the United States.

(2) Regulatory application. No provision of any third-party payer's plan or program purporting to have the effect of excluding or limiting payment for certain care that would not be given such effect under the standards established in part 220 of this title to implement 10 U.S.C. 1095 shall operate to exclude or limit payment under 10 U.S.C. 1095b or this section.

(f) Records available. When requested, TRICARE contractors or other representatives of the United States shall make available to representatives of any third-party payer from which the United States seeks payment under 10 U.S.C. 1095b, for inspection and review, appropriate health care records (or copies of such records) of individuals for whose care payment is sought. Appropriate records which will be made available are records which document that the TRICARE costs incurred on behalf of beneficiaries which are the subject of the claims for payment under 10 U.S.C. 1095b were incurred as claimed and the health care service were provided in a manner consistent with permissible terms and conditions of the third-party payer's plan. This is the sole purpose for which patient care records will be made available. Records not needed for this purpose will not be made available.

TMA Version - April 2005

(g) Remedies. Pursuant to 10 U.S.C. 1095b, when the Director, TRICARE Management Activity, or a designee, authorizes certain TRICARE claims to be paid, even though a third-party payer may be primary payer, the right to collect from a third-party payer the TRICARE costs incurred on behalf of the beneficiary is the same as exists for the United States to collect from third-party payers the cost of care provided by a facility of the uniformed services under 10 U.S.C. 1095.

(1) This includes the authority under 10 U.S.C. 1095(e)(1) for the United States to institute and prosecute legal proceedings against a third-party payer to enforce a right of the United States under 10 u.S.C. 1095b and this section.

(2) This also includes the authority under 10 u.S.C. 1095(e)(2) for an authorized representative of the United States to compromise, settle or waive a claim of the United States under 10 U.S.C. 1095b and this section.

(3) The authorities provided by the Federal Claims Collection Act of 1966, as amended (31 U.S.C. 3701 *et. seq.*) and any implementing regulations (including Sec. 199.11) regarding collection of indebtedness due the United States shall also be available to effect collections pursuant to 10 U.S.C. 1095b and this section.

(h) Obligations of beneficiaries. To insure the expeditious and efficient processing of third-party payer claims, any person furnished care and treatment under TRICARE, his or her guardian, personal representative, counsel, estate, dependents or survivors shall be required:

(1) To provide information regarding coverage by a third-party payer plan and/or the circumstances surrounding an injury to the patient as a conditional precedent of the processing of a TRICARE claim involving possible third-party payer coverage.

(2) To furnish such additional information as may be requested concerning the circumstances giving rise to the injury or disease for which care and treatment are being given and concerning any action instituted or to be instituted by or against a third person; and,

(3) To cooperate in the prosecution of all claims and actions by the United States against such third person.

(i) Responsibility for recovery. The Director, TRICARE Management Activity, or a designee, is responsible for insuring that TRICARE claims arising under 10 U.S.C. 1095b and this section (including claims involving the FMCRA) are properly referred to and coordinated with designated claims authorities of the uniformed services who shall assert and recover TRICARE costs incurred on behalf of beneficiaries. Generally, claims arising under this section will be processed as follows:

(1) Identification and referral. In most cases where civilian providers provide medical care and payment for such care has been by a TRICARE contractor, initial identification of potential third-party payers will be by the TRICARE contractor. In such cases, the TRICARE contractor is responsible for conducting a preliminary investigation and referring the case to designated appropriate claims authorities of the Uniformed Services.

(2) Processing TRICARE claims. When the TRICARE contractor initially identifies a claim as involving a potential third-party payer, it shall request additional information concerning the circumstances of the injury or disease and/or the identify of any potential third-party payer from the beneficiary or other responsible party unless adequate information is submitted with the claim. The TRICARE claim will be suspended and no payment issued pending receipt of the requested information. If the requested information is not received, the claim will be denied. A TRICARE beneficiary may expedite the processing of his or her TRICARE claim by submitting appropriate information with the first claim for treatment of an accidental injury. Third-party payer information normally is required only once concerning any single accidental injury on episode of care. Once the third-party payer information pertaining to a single incident or episode of care is received, subsequent claims associated with the same incident or episode of care may be processed to payment in the usual manner. If, however, the requested third-party payer information is not received, subsequent claims involving the same incident or episode of care will be suspended or denied as stated above.

(3) Ascertaining total potential liability. It is essential that the appropriate claims responsible for asserting the claim against the third-party payer receive from the TRICARE contractor a report of all amounts expended by the United States for care resulting from the incident upon which potential liability in the third party is based (including amounts paid by TRICARE for both inpatient and outpatient care). Prior to assertion and final settlement of a claim, it will be necessary for the responsible claims authority to secure from the TRICARE contractor updated information to insure that all amounts expended under TRICARE are included in the government's claim. It is equally important that information on future medical payments be obtained through the investigative process and included as a part of the government's claim. No TRICARE-related claim will be settled, compromised or waived without full consideration being given to the possible future medical payment aspects of the individual case.

(j) Reporting requirements. Pursuant to 10 U.S.C. 1079a, all refunds and other amounts collected in the administration of TRICARE shall be credited to the appropriation available for that program for the fiscal year in which the refund or amount is collected. Therefore, the Department of Defense requires an annual report stating the number and dollar amount of claims asserted against, and the number and dollar amount of recoveries from third-party payers (including FMCRA recoveries) arising from the operation of the TRICARE. To facilitate the preparation of this report and to maintain program integrity, the following reporting requirements are established:

(1) TRICARE contractors. Each TRICARE contractor shall submit on or before January 31 of each year an annual report to the Director, TRICARE Management Activity, or a designee, covering the 12 months of the previous calendar year. This report shall contain, as a minimum, the number and total dollar of cases of potential third-party payer/FMCRA liability referred to uniformed services claims authorities for further investigation and collection. These figures are to be itemized by the states and uniformed services to which the cases are referred.

(2) Uniformed Services. Each uniformed service will submit to the Director, TRICARE Management Activity, or designee, an annual report covering the 12 calendar months of the previous year, setting forth, as a minimum, the number and total dollar amount of cases involving TRICARE payments received from TRICARE contractors, the number and dollar

amount of cases involving TRICARE payments received from other sources, and the number and dollar amount of claims actually asserted against, and the dollar amount of recoveries from, third-payment payers or under the FMCRA. The report, itemized by state and foreign claims jurisdictions, shall be provided no later than February 28 of each year.

(3) Implementation of the reporting requirements. The Director, TRICARE Management Activity, or a designee shall issue guidance for implementation of the reporting requirements prescribed by this section.
