

Inpatient/Residential Substance Use Disorder Rehabilitation Facilities (SUDRFs) Standards

Issue Date: March 13, 1992

Authority: [32 CFR 199.6\(b\)\(4\)\(xiv\)](#)

1.0 ISSUE

SUDRFs Standards.

2.0 DESCRIPTION

SUDRFs shall operate primarily for the purpose of providing treatment of Substance Use Disorders (SUDs). An SUDRF is a residential or rehabilitation facility, or distinct part of a facility, that provides medically monitored, interdisciplinary addiction-focused treatment to beneficiaries who have psychoactive SUDs. Qualified health care professionals provide 24-hour, seven-days-per-week, assessment, treatment, and evaluation. An SUDRF is appropriate for patients whose addiction-related symptoms, or concomitant physical and emotional/behavioral problems reflect persistent dysfunction in several major life areas. Such programs shall be accredited by and shall remain in substantial compliance with standards issued by the Joint Commission (TJC), the Commission on Accreditation Rehabilitation Facilities (CARF), the Council on Accreditation (CoA), or an accrediting organization approved by the Director, Defense Health Agency (DHA). The regional contractor may submit, via the TRICARE Regional Office, additional accrediting organizations for TRICARE authorization, subject to approval by the Director, DHA.

3.0 POLICY

3.1 The regional contractor is the certifying authority for new applicants for status as an approved institutional provider for inpatient/residential SUDRFs. Separate certification is not required for authorized hospital units which are a distinct part of an authorized facility. Effective October 1, 1995, the SUDRF is not considered an authorized provider, and benefits are not paid for services provided until the date upon which a written participation agreement is signed.

3.2 Inpatient/residential SUD rehabilitation programs, except SUD rehabilitation programs provided in units which are a distinct part of an authorized hospital, must fully comply, and enter into a Participation Agreement with the Director, DHA, or designee.

3.3 In addition, in order for a freestanding inpatient/residential SUDRF to be authorized, the SUDRF shall comply with the following requirements:

3.4 An SUDRF shall be currently accredited by TJC, CARF, CoA, or an accrediting organization approved by the Director, DHA. The regional contractor may submit, via the TRICARE Regional

Inpatient/Residential Substance Use Disorder Rehabilitation Facilities (SUDRFs) Standards

Office (TRO), additional accrediting organizations for TRICARE authorization, subject to approval by the Director, DHA.

3.5 The SUDRF shall be licensed as an SUDRF to provide SUD services within the applicable jurisdiction in which it operates.

3.6 The SUDRF shall accept the allowable SUDRF rate, as provided in 32 CFR 199.14(a)(1)(ii)(E) and (a)(2)(ix), and the TRICARE Reimbursement Manual (TRM), Chapter 7, Section 3.

3.7 The SUDRF shall comply with all requirements applicable to institutional providers generally concerning accreditation requirements, preauthorization, concurrent care review, claims processing, beneficiary liability, double coverage, utilization and quality review, and other matters.

3.8 The SUDRF shall not be considered an authorized provider nor may any benefits be paid to the facility for any services provided prior to the date the facility is approved by the Director, DHA, or designee.

3.9 All services, supplies, equipment and space necessary to fulfill the requirements of each patient's individualized diagnosis and treatment plan are included in the reimbursement approved for an authorized SUDRFs. All mental health services must be provided by a TRICARE authorized individual professional provider of mental health services. [Exception: Residential treatment programs that employ individuals with master's or doctoral level degrees in a mental health discipline who do not meet the licensure, certification, and experience requirements for a qualified mental health provider but are actively working toward licensure or certification may provide services within the all-inclusive per diem rate, but such individuals must work under the clinical supervision of a fully qualified mental health provider employed by the facility.]

3.10 Case management services required. The facility must provide case management services that help assure the patient appropriate living arrangements after treatment hours, transportation to and from the facility, arrangement of community based support services, referral of suspected child abuse to the appropriate state agencies, and effective after care arrangements, at a minimum.

3.11 The SUDRF shall enter into a written participation agreement with the Director, DHA. (See Section 12.3 and Addendum D.)
