Revision:

1.0 CPT PROCEDURE CODES

99304 - 99310, 99315, 99316, and 99318

Effective 1 January 2006, The American Medical Association Current Procedural Terminology (CPT) evaluation and management service codes (visit codes) were revised. The old 90000 series were replaced by a new CPT 90000 series. The new codes are valid for claims processing for claims submitted on or after January 1, 2006.

2.0 DESCRIPTION

Nursing facilities (formerly called Skilled Nursing Facilities (SNFs), Intermediate Care Facilities (ICFs), or Long-term Care Facilities (LCFs)) are places of residence for people who require constant nursing care and have significant Activity of Daily Living (ADL) deficiencies. Residents include the elderly and younger adults with physical disabilities. Adults 18 or older can stay in a skilled nursing facility to receive physical, occupational, and other rehabilitative therapies following an accident or illness.

3.0 POLICY

SNF visits are covered when provided by an authorized provider for the diagnosis or treatment of a specific illness or condition or set of symptoms.
