

Court-Ordered Care

Issue Date: December 5, 1984
Authority: [32 CFR 199.4\(g\)\(22\)](#)
Revision:

1.0 DESCRIPTION

Court-ordered care is medical service, including inpatient admissions, that a court of law orders or directs a party in a legal proceeding to obtain.

2.0 POLICY

The fact that medical services are ordered by a court does not determine the coverage of those medical services. Benefits will be paid only if the service is to diagnose or treat a covered condition, if the service is at the appropriate level of care to treat the condition, and if the beneficiary (or the beneficiary's family) has a legal obligation to pay for the service.
