## **Foreword**

The TRICARE System Manual (TSM), 7950.2-M, defines the contractor's responsibilities for automated processing of health care information, reporting and transmission of relevant data between the contractor and the TRICARE Management Activity (TMA). The manual also provides the requirements for the TRICARE contractors to interface with the Defense Enrollment Eligibility Reporting System (DEERS) for obtaining beneficiary eligibility verifications from DEERS and performing TRICARE Prime enrollments onto DEERS.
