## Foreword

Revision: C-59, September 27, 2019

The TRICARE Operations Manual (TOM), 6010.59-M provides operational requirements and program guidance for contractors who are contractually bound by part, or all, of this manual.

The Department of Defense (DoD) has a License Agreement with the American Medical Association (AMA) regarding the use of the Physician's Current Procedural Terminology (CPT), a coding work of medical nomenclature developed by the AMA. In accordance with the terms of that Agreement, the DoD has agreed to:

1. Include a Copyright notice in every section that references CPT codes;
2. Specifically identify procedure codes as CPT codes;
3. Use only short descriptions with CPT codes and delete all long descriptions; and
4. Italicize short descriptions whenever they are used.

The TRICARE Manuals provide instructions, guidance and responsibilities in addition to the requirements set forth in the incorporated federal statutes and the regulations and may not be interpreted in contradiction thereto.
