

Freestanding And Hospital-Based Birthing Center Reimbursement

Issue Date: February 14, 1984

Authority: [32 CFR 199.6\(b\)\(4\)\(xi\)\(A\)\(3\)](#) and [32 CFR 199.14\(e\)](#)

1.0 APPLICABILITY

This policy is mandatory for reimbursement of services provided by either network or non-network providers. However, alternative network reimbursement methodologies are permitted when approved by the Defense Health Agency (DHA) and specifically included in the network provider agreement.

2.0 DESCRIPTION

A birthing center is a freestanding or institution affiliated outpatient maternity care program which principally provides a planned course of outpatient prenatal care and outpatient childbirth service limited to low-risk pregnancies; excludes care for high-risk pregnancies; limits childbirth to the use of natural childbirth procedures; and provides immediate newborn care.

3.0 POLICY

3.1 A freestanding or institution affiliated birthing center **shall** be considered for status as an authorized institutional provider.

3.2 Reimbursement for all-inclusive maternity care and childbirth services furnished by an authorized birthing center shall be limited to the lower of the TRICARE established all-inclusive rate or the billed charge.

3.3 The all-inclusive rate shall include the following to the extent that they are usually associated with a normal pregnancy and childbirth: laboratory studies, prenatal management, labor management, delivery, postpartum management, newborn care, birth assistant, certified nurse-midwife professional services, physician professional services, and the use of the facility. The rate includes physician services for routine consultation when certified nurse-midwife is the attending professional.

Note: The initial complete newborn examination by a pediatrician is not included in the birthing center all-inclusive fee and **shall** be cost-shared as a part of the maternity episode when performed within 72 hours of the delivery.

TRICARE Reimbursement Manual 6010.58-M, February 1, 2008

Chapter 10, Section 1

Freestanding And Hospital-Based Birthing Center Reimbursement

3.4 TRICARE maximum allowable birthing center all-inclusive rates for services provided prior to April 1, 2018.

3.4.1 The TRICARE maximum allowable all-inclusive rate is equal to the sum of the CHAMPUS Maximum Allowable Charge (CMAC) for total obstetrical care for a normal pregnancy and delivery (Current Procedural Terminology (CPT)¹ procedure code 59400) based on the appropriate class of the professional provider submitting the claim plus the DHA supplied non-professional price component amount. DHA will supply each contractor with non-professional price components for each state annually to be effective for the forthcoming rate year (see [Addendum A](#)).

3.4.2 Claims for professional services and tests where the beneficiary has been screened but rejected for admission into the program, or where the woman has been admitted but is discharged from the birthing center program prior to delivery, **shall** be priced as individual services and items, subject to current policies for obstetrical care professional services and reported as appropriate CPT procedure code with either Place of Service code **"22"** or **"25"**.

3.4.3 Claims from birthing centers **shall** be processed as outpatient hospital claims using Revenue Code 724 and the following CPT procedure code with either Place of Service code **"22"** or **"25"**.

59400 - Obstetrical care

3.4.4 The cost-share amount for birthing center claims is calculated using the ambulatory surgery cost-share formula.

3.4.5 The maximum allowable all-inclusive rate shall be updated on April 1st each year to coincide with the Outpatient Prospective Payment System (OPPS) quarterly update.

3.5 TRICARE maximum allowable birthing center all-inclusive rates for services provided on or after April 1, 2018.

3.5.1 The all-inclusive rate requirement shall not preclude reimbursement of the individual components of covered services (both professional and non-professional) furnished by the birthing center that would otherwise be included within the all-inclusive rate. Therefore, birthing centers **shall** be paid an all-inclusive rate for services (professional and non-professional) that they actually provide. If the birthing center only provides part of the professional services because the beneficiary moves and gets the remaining services elsewhere, **DHA will** pay only for that part of the services (namely, the professional services) they provided as part of the all-inclusive rate for the birthing center. Likewise, if the birthing center does not provide facility services for the actual delivery, the all-inclusive rate **shall** not include the facility component payment.

3.5.2 The facility component of the birthing center all-inclusive rate **shall** be the one-day Diagnosis Related Group (DRG) **Short-Stay Outlier (SSO)** for DRG 775 (uncomplicated vaginal birth) adjusted for geographic cost variations. **Since DRG 775 has been deleted by the Centers for Medicare and Medicaid Services (CMS) starting in Fiscal Year (FY) 2019, DHA is replacing DRG 775 with the one-day SSO for DRG 807 (uncomplicated vaginal birth without sterilization/D&C) adjusted for geographic cost variations, effective for service dates on or after October 1, 2018.** This

Chapter 10, Section 1

Freestanding And Hospital-Based Birthing Center Reimbursement

facility rate more accurately reflects the costs associated with a normal vaginal delivery and will be consistent with TRICARE reimbursement rates currently in use for inpatient institutional services. The DRG zip-to-wage index files shall be used for adjusting the facility component rate for geographical labor cost variations.

3.5.3 The total all-inclusive rate [i.e., the global maternity (CPT² procedure code 59400) professional rate plus the facility DRG 775 or DRG 807 amount] shall only be reimbursed if all of the maternity services (antepartum, delivery and postpartum services) are provided by the same birthing center.

3.5.4 The all-inclusive rate for partial episodes of care, due in part to the high degree of mobility inherent in military life resulting in changing providers during pregnancy, shall be comprised of the sum of the applicable professional (CMAC) and facility component (DRG 775 or DRG 807) rates as reflected in the following coding chart:

CODING USED FOR PAYMENT OF BIRTHING CENTERS					
PROFESSIONAL PAYMENT	DESCRIPTION	FACILITY PAYMENT FOR SERVICE DATES APR 1, 2018 - SEP 30, 2018	DESCRIPTION	FACILITY PAYMENT FOR SERVICE DATES ON OR AFTER OCT 1, 2018	DESCRIPTION
59400	(Global Professional Services) <i>Obstetrical care</i>	DRG 775 Short Stay Outlier (SSO)	Vaginal Delivery w/o Complicating Diagnosis	DRG 807 (SSO)	Vaginal Delivery w/o Sterilization/D&C w/o Complicating Diagnosis
Appropriate Evaluation & Management (E/M) Codes	<i>Antepartum care only, 1-3 visits</i>	No Payment		No Payment	
59409	<i>Obstetrical care</i>	DRG 775 (SSO)	Vaginal Delivery w/o Complicating Diagnosis	DRG 807 (SSO)	Vaginal Delivery w/o Sterilization/D&C w/o Complicating Diagnosis
59410	<i>Obstetrical care</i>	DRG 775 (SSO)	Vaginal Delivery w/o Complicating Diagnosis	DRG 807 (SSO)	Vaginal Delivery w/o Sterilization/D&C w/o Complicating Diagnosis
59425	<i>Antepartum care only</i>	No Payment		No Payment	
59426	<i>Antepartum care only</i>	No Payment		No Payment	
59430	<i>Care after delivery</i>	No Payment		No Payment	

3.5.5 The following are examples of payment of itemized services provided by different health care providers using the above coding chart:

TRICARE Reimbursement Manual 6010.58-M, February 1, 2008

Chapter 10, Section 1

Freestanding And Hospital-Based Birthing Center Reimbursement

3.5.5.1 Antepartum Care Only: CPT³ procedure codes 59425 (*Antepartum care only; 4-6 visits*) and 59426 (*Antepartum care only; 7 or more visits*) were created for situations such as relocation or change to another health care provider. In these situations, all the routine antepartum care (usually 13 visits) or global care may not be provided by the same health care provider.

Example: A beneficiary receives her antepartum visits (12 visits) from an obstetrics and gynecology (OB/GYN) group in San Diego, CA, and is subsequently relocated to Norfolk, VA, where she receives the remainder of her maternity care (i.e., delivery and postpartum care) from a birthing center. The OB/GYN group **shall** receive payment for the antepartum visits only (CPT³ procedure code 59425) while the birthing center **shall** receive payment for the remaining professional services related to the delivery and postpartum care (CPT³ procedure code 59410), along with DRG 775 **or** DRG 807 for the facility delivery services.

3.5.5.2 Postpartum Care Only: CPT³ procedure code 59430 (*Care after delivery Postpartum care only (separate procedure)*) was created for situations where postpartum care is not provided by the same health care provider that performed the actual delivery. The American Congress of Obstetricians and Gynecologists (ACOG) considers the postpartum period to be 60 days following the date of the vaginal delivery.

Example: A beneficiary receives her antepartum visits (13 visits) and delivery from a birthing center in Denver, CO, and is subsequently relocated to San Antonio, TX, shortly after delivery where she receives her postpartum care from an OB/GYN group. The birthing center **shall** be reimbursed for the antepartum visits (CPT³ procedure code 59426), the professional delivery services (CPT³ procedure code 59409), and the delivery facility services (DRG 775 **or** DRG 807) while the OB/GYN group **shall** receive separate payment for the postpartum care (CPT³ procedure code 59430).

3.5.5.3 Vaginal Delivery Only, No Postpartum Care: Delivery services include admission to the birthing center facility, the admission history and physical examination, and management of uncomplicated labor and vaginal delivery. CPT³ procedure code 59409 (*Obstetrical care vaginal delivery only, with or without episiotomy and/or forceps*) was created for delivery services only; i.e., where only the delivery component of the maternity care is provided and antepartum and postpartum care are performed by other health care providers.

Example: A beneficiary receives her antepartum visits/care from a birthing center in Colorado Springs, CO, and is subsequently relocated to Augusta, GA, where she delivers at a birthing center, and after which she moves back temporarily to Colorado Springs to be with family and friends. She receives her postpartum care from the birthing center in Colorado Springs. The birthing center in Colorado Springs **shall** receive separate payment for the antepartum (CPT³ procedure code 59426) and postpartum (CPT³ procedure code 59430) care, while the birthing center in Augusta, GA, **shall** receive payment for both the facility (DRG 775) and professional (CPT³ procedure code 59409) delivery services.

3.5.6 The maximum allowable all-inclusive component (professional and facility) rates **shall** be updated to coincide with the annual DRG and CMAC updates.

TRICARE Reimbursement Manual 6010.58-M, February 1, 2008

Chapter 10, Section 1

Freestanding And Hospital-Based Birthing Center Reimbursement

3.5.7 The cost-share amount for birthing center claims for which there is a facility component (DRG 775 or DRG 807) shall be calculated using the ambulatory surgery cost-share formula. That is, claims from birthing centers processed as outpatient institutional claims using Revenue Code 724 and the following CPT procedure codes with Place of Service "25" for birthing center shall be cost-shared the same as an Ambulatory Surgical Center (ASC). Separate cost-sharing will not be deducted for professional services as long as there is a facility component billing (DRG 775 or DRG 807) on the claim.

59400 - Obstetrical care

59410 - Obstetrical care

59409 - Obstetrical care

3.5.8 Freestanding birthing center claims for which only the following professional services are billed shall be subject to the standard outpatient cost-share provisions; i.e., a separate cost-share shall be deducted for professional services for which there is no corresponding non-professional (facility) component billed on the claim.

59425 - Antepartum care only

59426 - Antepartum care only

59430 - Care after delivery

3.6 Extraordinary maternity care services (services in excess of the quantity or type usually associated with all-inclusive maternity care and childbirth service for a normal pregnancy) shall be cost-shared as part of the birthing center maternity episode and paid as the lesser of the billed charge or the allowable charge when the service is determined to be otherwise authorized and medically necessary and appropriate.

3.7 Claims for birthing centers shall be submitted on a CMS 1450 UB-04 claim form. Claims not submitted on the appropriate claim form shall be denied.

3.7.1 Both the technical and professional components of usual tests are included in the all-inclusive rate.

3.8 Excluded services⁴ when billed separately.

99071 Patient education materials

99078 Group health education
